Transformative Justice (TJ) is a way of addressing acts of violence that relies on community members instead of the police, the law, or the government (also known as the State). It is a response to the racism, ableism, and gender-based oppression that shape our lives. All TJ models reject the criminal-justice system, choosing instead to rely on community support networks that cultivate violence prevention, healing, accountability, resilience, and safety for all.

# What does justice feel like?
