PARIS CREATES NEW SENSATION

HATTIESBURG, Miss., July 26.-A Negro art exhibition here which opened on Saturday is also to the black countries in the South, and Negro artists and art seekers are gradually falling in line.

The Negro art exhibition here, the second of its kind in Paris, is also to the black countries in the South. Negro artists and art seekers are gradually falling in line.

PARIS, France. July 25.-France is anxious to learn more about Negro art - statues, poems, pictures of the Young Men's Christian Association. Tuesdays, Wednesdays, and Saturdays.

As Negro art--clothing, books, and even plantations--is being exported, there is no longer any need to be out of line. Negro art is being imported, and Negro art is being imported, and Negro art is being imported.

PARIS, France. July 25.-France is anxious to learn more about Negro art - statues, poems, pictures of the Young Men's Christian Association. Tuesdays, Wednesdays, and Saturdays.

A Few Enterprises Among Portland Negroes

The Golden West Hotel, located at Broadway and Everett streets, is the business center of the Negroes in Portland. W. D. Allen, a shrewd business man, is proprietor, and has supporting him some very efficient assistants. Nowhere in the United States is there a better appointed hostelry for colored people, the size of this hotel, furnished throughout conveniently. The line of business is new to the Negro, and the fact that this enterprise has been successful speaks well of the business sense of the proprietor.

It may be interesting to know that this hotel is supported largely by transients and the many railroad men who come into Portland daily, who find all the conveniences of home in the hotel. Mr. Allen keeps a system of bookkeeping, under the supervision of an expert bookkeeper, and these business methods are applied to the several departments. Connected with the hotel is a well-appointed barber shop owned by Waldo Bogle; the finest ice-cream parlor and candy shop west of Chicago, serving its patrons with all kinds of delicacies and soft drinks, under the constant supervision of A. G. Green, the proprietor; a well-appointed restaurant serving all kinds of dishes, under the management of W. G. Gong, manager; a well furnished club room with Turkish baths and gymnasium for the Golden West Athletic League, under the management of Geo. P. Moore; all provide for the amusement and satisfaction of the guests.

During the war the many drives were well supported and thousands of dollars were invested in bonds and war activities through the activity of the race men, who felt it a duty to interest themselves in the success of Portland. Red Cross work, Y.M.C.A. drives and every charitable endeavor found generous support from the proprietor and guests at this center. There is no doubt that this business enterprise should prove an inspiration to other young men who are seeking a field of business. Learn how to meet people, then go into the hotel business in one of its success will crown you as it has crowned W. D. Allen, a self-made man.

Recharging
the Tonic that puts pep into run-down batteries
Intelligent, careful attention and complete facilities are just as important in battery recharging as in the most intricate repair jobs on your car. A little carelessness, a slight lack of knowledge, too much of a hurry can knock a blow out of the life of your battery and lessen its service to you.

Our equipment and our way of working have met the strict requirements of the makers of the

Columbia Storage Battery
In makers were just as particular to find out about our ability and facilities to render service—real service—as they are about the construction of the Columbia Battery itself. There are eighteen reasons why a Columbia on your car will give long, strong service. Here are just three of them:

First, the battery is built for strength, power and performance. Second, it is guaranteed as to length of life with a real, definite guarantee (no "adjustment" payment required). Third, we stand ready to help you keep it in perfect operating condition.

Come to us for recharging and repairs—whatever the make of your present battery. Let us demonstrate the 18 points of superiority which make the Columbia a profitable investment.

The System Makes the Bargains

There Is Nothing Marvelous About the BARGAINS at SHANAHAN’S

They are simply the logical outcome of a certain business system—a system that cuts out all non-essentials in buying and selling; that discards every expense not absolutely essential to conducting a business safely, so that goods may be sold at a minimum profit. In this way bargains can be given all the time without resorting to sensational sales.

THE TIMES IS A SAMPLE OF OUR WORK
Servant Problem With Us

VERY woman in Portland who has any housework of her own to do knows
we are telling an exact but painful truth when we say the servant problem
is one of the most aggravating issues of today. You simply cannot get
household help of a satisfactory character without feeling as if you had spent
a month in the front line trenches. And, on top of that, wages have gone
out of sight.

Now, a very large part of this worry and grief is entirely unnecessary, and you can
reduce your household expenses very materially at the same time and have your work
done in better shape, exactly the way you want it and when you want it, if you will do
just what hundreds and hundreds of families right here in Portland are doing.

And this is what they are doing:

Like yourself, they have grown weary of fighting an unsuccessful and never-ending
battle with the servant problem and they have turned to the greatest of all household
friends and economizers—Electric Energy and Invention.

The two very best labor-saving devices that any up-to-date home needs and has con­
stant use for are—the Electric Washing Machine and the Electric Vacuum Cleaner.

The wise and prudent and thrifty housewife has long since dumped the antiquated
old wash tub, washboard and hand broom sweeper into the ash can and they have in­
stalled the neat, attractive, efficient and economical Electrical servants—the washing
machine and the vacuum cleaner into their homes, and no woman who ever uses
either of them will ever do without them again.

We are selling them like hot cakes right now, for in the hot weather is when they
come in the handiest and make their value apparent immediately.

Drop in at our Electric Store, Electric Building, some time when you are down
town and let our expert demonstrators show you just how they work. It will cost you
nothing, and if you want to buy, you can buy these wonderful labor-saving devices on
easy monthly installments. You can pay for them while you are using them.

It Costs
No More

And Serves
You Better
