MAP
SHOWING THE DISTRIBUTION
OF THE
SLAVE POPULATION
OF THE
SOUTHERN STATES
OF THE
UNITED STATES
Compiled from the
CENSUS OF
1860.

Washington, September 1860.

NOTE.
It should be observed that several counties appear vacant
in the map, although they contained slaves in 1860. This
is owing to their smallness in extent, and the difficulty
in ascertaining the number of slaves in each. The
information is derived from the Returns of the Census
of 1860, and is, therefore, the best that can be had in
the absence of special returns on the subject.

Scale of shades:
- Less than 10 per cent.
- 10 to 20 per cent.

Legend:
- Lightest shade:
- Darkest shade:

CENSUS OFFICE, DEPARTMENT OF THE INTERIOR
Washington, Sept. 1860.

After a careful examination of the above very interesting map
I am prepared to state that it is not only numerous the different shades,
but it is filled in, so corresponding with the returns, as
all of the 39 States.
