In the space below, write a minimum of half of a page (approx. three paragraphs) addressing each of the following questions:

- What ground will you choose to fight on? Be specific and provide detailed evidence justifying why you would place troops here (What advantage does this ground hold over other locations?).
- What ground should be avoided? Be specific and provide detailed evidence justifying why this is a bad place to put troops (What disadvantages or obstacles does this ground hold?).
- After reviewing the maps that show what actually happened on day 1, 2, and 3 of the battle, how close was your analysis to what actually happened? (Did Union generals choose the same ground you choose? Different? Why do you think they chose that ground over others?)
