THE WORLD'S ELECTRICAL EXPOSITION

A mammoth mass meeting has been called next Monday night at the Coliseum, East Sixteenth and Alder, to consider the staging of a World's Electrical Exposition in 1938 on the occasion of the completion of the Bonneville dam. The Advocate urges the colored citizens to have representation there so that proper consideration will be given to their part of the diversions, etc., and to see that the duty is done by the proper branch of the State and from a financial standpoint, it will be hard at this early date to determine the great benefit to be derived from such an undertaking. Let it be known that we belong to a minority group but remember that we are loyal and good citizens of the State and we ask you to do your part to make the whole complete and successful.

SCHOLARSHIPS

In keeping with the trend of the times and in answer to the world's demand that we prepare the future for the coming generation of leaders, the Federation of Colored Women of Portland are sponsoring a scholarship to a worthy student. This is a commemorative activity which deserves every one's support.

PRECEDING ELECTIONS

For approximately seven years the world has been in the throes of a disastrous economic depression. Due to the shortage in values, great fortunes have shrivelled away; almost to the vanishing point. Millions of men and women are finding the streets of the great cities happen and hungry, seeking work and finding none — So-called best minds have proven woefully inadequate to the task of finding a new world-order is repeated in our land and in all lands. The most common failure of modern institutions is their failure to understand man — Life has become alarmingly cheap as frequent abductions and startling figures of homobo violence have been the rule of the day. The Negro vote has wakened up and will, we believe, be a factor in the political elections for the next four years.

AVERTING A LYNCHING

The following editorial from the Times-Picayune, leading New Orleans paper, is both unique and illuminating.

"DEPUTIZING A MOB"

One of the most violent and nerve-shaking incidents of the day should be awarded to the 74-year-old Georgia Judge who took up a lynching last week by the brand-new device of "deputizing" the would-be lynchers. Summoned from a field by the Sheriff, after the mob had started to build a hole through the wall of the jail in which their prospective victim was held, the aged jurist had his way, and it is said, took charge of the lynchers. His method was to induce the mob's members to be appointed as bailiffs, constables, constables, constables, etc., to act as united force against the state. The mob's members were induced by the Sheriff to act as bailiffs, constables, constables, etc., to act as united force against the state.
