A Job For All Of Us

Now that the President has put up the stop sign on all discrimination on race, color, or national origin, it is up to all Negro golfers to join with industry in giving government contracts for national defense programs to Negro golfers just as the President has directed. First there must be a clear understanding of what the order means.

What The Executive Order Means

Briefly it amounts to this:

1. All vocational training programs for defense operations under government supervision must be open to all persons, regardless of race, color, or national origin. This includes all courses in industrial skills operated under the supervision of the WPA, NTA, U. S. Office of Education, and local programs receiving assistance from the federal agencies.

2. All contracts granted after June 25 when the executive order was issued, by the U. S. government (including all its departments and agencies like the Army, Navy, Marine Corps, Office of Production Management and others) must have clauses in them which state that the company or person passing the contract will not discriminate against any work because of his race, color, or national origin.

3. The Committee on Fair Employment Practices consists of six men, two colored, four white, with an executive secretary sworn to be employed, in responsible only to the President. Its work is to receive and investigate complaints of discrimination in defense industries or vocational schools for government defense work; to investigate these complaints, and when it finds the charges justified, to take steps necessary to see that the executive order is obeyed. Members of the Committee on Fair Employment Practices are Mark Etheldreda, managing editor of the Louisville, Ky., Courier-Journal, Edward A. Pitter, chairman; David Sarnoff, president of the Radio Corporation of America, New York; H. E. Dickerson, chairman, the South Carolina Deeds; W. H. Peck, vice-president of the Brotherhood of Railway Trainmen; William S. Copeland, counsel for the National Federation of Labor, and Philip Murray, president of the Congress of Industrial Organizations. When the executive secretary to the committee is appointed complaints must be sent to him.

How To Make The Exce. Order Work

In order to make the work of the FEP Committee mean the most to us and to prevent any employer from disobeying the order, it is the responsibility of every Negro American to:

1. Send all known instances of discrimination on account of race, color by industrial plants with government contracts for defense work to the committee for their investigation. If the committee finds the charges justified, it will take steps to see that the executive order is obeyed.

Although their trip here, arriving last Wednesday, was one of surprise and joy for the family, they were kept busy with the events that occurred on their departure. The family was honored with a gala party held in their honor, and they were given gifts including beautiful flowers and cards. The family was also witness to the generosity of Portlanders, as they received gifts from their many friends and neighbors.

Portlander's Feasts Californians

Mrs. Joe L. Pearson, Sr., left for his home in Portland last Wednesday to care for his mother, who is in the hospital. For the pleasure of several of her friends, the family decided to give the mother a farewell dinner at the home of her brother, Mr. and Mrs. W. W. Simmons, in Oakland.

A trip of relaxation, spent with her husband, Mr. and Mrs. William B. Pearson, they arrived at a lemon ranch near Los Angeles, where they spent several days relaxing and enjoying the beauty of the area. The family was also witness to the generosity of the owner, who provided them with fresh fruits and vegetables.
