STARS Annual Report

The Sustainability Tracking, Assessment & Rating System™ (STARS) is a transparent, self-reporting framework for colleges and universities to measure their sustainability performance. It is administered by the Association for the Advancement of Sustainability in Higher Education™ (AASHE)

PORTLAND STATE UNIVERSITY

The Campus Sustainability Office (CSO) compiles information from departments across campus annually to complete the STARS Report. The score is based on the number of points received across five categories: Academics, Engagement, Operations, and Planning & Administration, and Innovation & Leadership. PSU has maintained a Gold rating since the institution began reporting in 2011 and is within the top 40 of over 400 reporting institutions. This summary includes improvement opportunities to assist our efforts to eventually become a STARS Platinum institution. For more information on improvement opportunities please contact Amanda Wolf at wolf@pdx.edu

Key Average of reporting institutions

Category	Improvement Opportunity	Achieved	Points Possible	STARS Average Score
Academics				
Curriculum	Improve identification of existing sustainability courses • Increase sustainability course offerings / learning outcomes • Create sustainability learning assessment	20.6	40	24.09
