<td>History Asian Art</td>
<td>4.4.4</td>
<td>A survey of art and architecture of Asia from prehistoric times to the 19th century. The art and architecture (including ceramics, sculpture, painting, textiles, and other utilitarian implements – e.g., ritual bronze vessels of China) of Asia will be presented in context of chronology, source (indigenous of foreign influences), and site; and in relation to the forces of each society's culture, religion, politics, geography, and history. Buddhism, Hinduism, Confucianism, Shintoism, Taoism, Shamanism, symbolism, and mythology are basic to the arts of Asia. ARH 311: South Asia (India) and Southeast Asia (Sri Lanka, Cambodia, Thailand, Burma and Indonesia). ARH 312: China &amp; Korea. ARH 313: Japan. Prerequisites: Upper division standing. Open to non-majors. Change prerequisites.</td>

**Art 487: Advanced Jewelry and Metalsmithing**

An upper-level light metals course with focus on conceptual development and increasingly specific technical methodology. Builds on skills developed in lower-division courses and refines personal visual language and progression of ideas. Experimental materials and methods are encouraged. Prerequisites: Art 117, Art 287. Open to non-majors with instructor's consent.

**Art 497/597: A History of Art and Social Practice**

A history of social practice in art. Investigate the current critiques, debates and issues surrounding its current state in relation to its historical context. The course will examine social practice from 1920 to present and touch on the key movements. Place a strong emphasis on contemporary examples of social practice art through readings, assignments, and online participation. This course will give a historic and critical context for social art. Open to non-majors. Prerequisites: at least junior standing or graduate standing.

**Art 578: Studio Practice: Workshop**

This course is a co-requisite to Art 580 Studio Practice: Directed Studies. In this workshop the focus will be on group dialogue and peer critique of individual and collaborative work with an emphasis on the relationship between research, production and presentation. In addition to requiring that students experiment with new methods, materials and modes of research in regard to their studio work, ART 578 develops students' ability to assess the strength of developing work, enhances their ability to speak about their work and the work of their peers and gives them a wider view into issues and aspects of studio production. Includes reading assignments, student-led discussion, guest speakers and field trips. May be repeated for credit. Maximum credits 24. Required for MFA. Prerequisites: graduate standing.

**BA 423: Executive Perspectives on Leadership**

This course provides students the opportunity to interact and learn directly from executives at for-profit, not-for-profit and government organizations. Students will listen to and discuss the concepts and practices of leadership as it relates to the professional experiences of the executives.

**Bi 334: Molecular Biology**

The principles, concepts and methods of molecular biology focusing on structure, biochemistry, biosynthesis and regulation of cellular macromolecules-DNA, RNA and proteins. Topics covered include the nature, structure, regulation of expression of genes, molecular aspects and regulation of translation, DNA replication and repair, mutagenesis, and an introduction to molecular techniques. Prerequisites: BI 251 and CH 223.

**Bi 336: Cell Biology**

An introduction to the biology of eukaryotic (plant/animal) and prokaryotic cells (bacteria, etc.) with emphasis on physiology, biochemistry, morphology, and energetics. Four hours of lecture and one hour of recitation. Prerequisites: BI 334.

**Bi 358: Evolution**

Examination of processes underlying evolutionary change and patterns of biodiversity generated by these processes. Introduction to elementary population genetics, quantitative genetics, and phylogenetics. Emphasizes methods of reasoning and experimentation used in evolutionary research. Prerequisites: BI 251, 252, 253.

**Bi 372: Nanotechnology, Society and Sustainability**

Introduction to ethical, legal, and social issues associated with nanotechnology. Critically evaluates implications and applications of nanotechnology to environmental and human health concerns, in local and global contexts. Addresses nanotechnology's impact on the economic, environmental, and social aspects of sustainability.

<td>Sociology of Africa: Post-colonial Studies of Africa</td>
<td>4</td>
<td>This course will explore the relationship and ongoing dynamics between colonizers and the colonized in 20th century Africa, in the context of post-colonial studies. Nationalist, socialist, anti-colonialist, and Apartheid movements in Africa are each a direct consequence of global imperialism and its legacy. This course, will help to understand the social, political and economic implications and dimensions of imperialism in the 20th century.</td>

Introduces the role financial institutions play in financial markets, the structure of institutions and how they facilitate economic growth through the transfer of capital. The course then analyzes how institutions measure and manage the unique risks that they are exposed to through their ordinary operations. Prerequisites: Fin 511.

Description, classification, and genesis of minerals and their importance for understanding the make up of the Earth and planets, mineral resources, and industrial applications. Prerequisite: one year of general chemistry. Corequisite: G313.

Analytical and imaging methods to evaluate a range of physical and chemical properties of minerals such as morphological features, quantitative evaluations of chemical constituents, and determination of crystal structures used for mineral identification. Prerequisites: one year of general chemistry. Corequisite: G 312.

Origin, classification, and distribution of igneous, metamorphic, and sedimentary rocks. Composition of the Earth's crust and mantle. Emphasis on rock type assemblages and their genesis occurring at major plate tectonic environments as represented by active/passive continental margins, rift zones, ocean basins and trenches, ocean islands, continent-continent collision belts, and stable cratons. Prerequisite: G312. Co-requisite: G315.

Description of the physical characteristics of naturally occurring rocks in hand specimen and thin section under the petrographic microscope. Understanding textures and fabrics of rocks and what physical and chemical parameters control them such as crystallization and nucleation rate, compositional environment, stress field, and provenance characteristics. Prerequisites: G 312, G 313. Corequisite: G 314.

Physical processes occurring in the upper crust including tectonic provenances, weathering, mass transport, fluid-sediment transport, depositional environments, stratigraphic sequences, and intratratal diagenesis. Prerequisite: G 201/204 and G 202/205. Co-requisite: G319.

Introduction to methods of investigation of physical processes occurring in Earth’s upper crust. Topics include design and use of environmental sensors, landscape analysis using digital data sets, and scale model experiments. Prerequisites: G 201/204 and G 202/205. Corequisite: G 318.

Origin and development of plants, animals and man on earth, as interpreted from the study of fossils and the sedimentary rocks in which they occur. Includes integrated laboratory and field experience. Prerequisite: upper-division standing. Two lectures, one 2-hour laboratory (academic year) or field studies (summer).

Origin and geologic history of landscape features in Oregon and the Pacific Northwest. Two lectures, one 2-hour laboratory (academic year) or field studies (summer). Prerequisites: upper-division standing.

A study of volcanoes and earthquakes as they affect humans and the development of landscapes. A field trip is required. Prerequisite: an introductory science course.

Evaluates changing ecosystem services in a holistic way, drawing multiple disciplines, including ecology, economics, engineering, and geographical and spatial sciences. Introduces methods and models from multiple disciplines to analyze ecosystem services across biophysical, social economic, and cultural contexts. Provides an interdisciplinary foundation for evaluating ecosystem services. This is the same class as Mgmt 694 and may be taken only once for credit.

Change course number from 696; change title & description.

<td>GSCM 520</td>
<td>Global Supply Chain Strategy</td>
<td>2</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>In this course students develop the ability to conceptualize, design, and implement supply chains aligned with product, market, and customer characteristics. Students assess how internet technologies, dynamic markets, and globalization are impacting supply chain strategies and practices, including: logistics, inventory and risk management, procurement and supply contracting, product and process design, and revenue channels.</td>

</tr>
<tr>
<td>Fall 2013</td>
<td>GSCM 521</td>
<td>Global Information, Systems and Data Analytics</td>
<td>4</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>The premise of this course is that supply chain management must understand and assess the information resources and technologies that underpin the life cycle of goods and services. Information is generated at each stage of the supply chain and crucial to the performance is where and how to store, analyze and act upon its insights.</td>
<td></td>
<td></td>
<td></td>

<tr>
<td>Fall 2013</td>
<td>GSCM 522</td>
<td>Global Leadership and Ethics in Supply Chain Management</td>
<td>2</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>This course provides students with a solid understanding of the concepts linking leadership to global and social systems, international organizational development, and the connection between leadership, systems, and global supply chains. Global leadership is studied from four perspectives: the virtual team leading across borders and organizations, ethical and cultural ramifications of leadership, and the ethical traits of global leaders and fellowship, and your own value system and its place within a global supply chain organization.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Fall 2013</td>
<td>GSCM 525</td>
<td>Supply Chain Capstone Consulting Experience</td>
<td>4</td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>The course provides students the opportunity to have a significant, hands-on experience that builds upon the foundation of the core of the GSCM program. Students, operating as part of a consulting team, work closely with a client to help to solve a supply chain oriented business problem. The scope of the project is 600 hours of research as a group on the behalf of the client.</td>

### Human Resource Strategy
This is the final course in the Human Resource Management sequence. Uses case analysis, outside speakers, and a comprehensive project to provide an in-depth, analytical study of human resource management and the tasks of the modern human resource executive. Focuses on transforming the HRM function for the modern corporation. Emphasizes the strategic aspect of HRM while studying executive-level decision making in all aspects of HRM. Preference on waiting list will be given to HRM-option students. Prerequisites: Mgmt 351, Mgmt 461, Mgmt 471.

### Information Systems and Technology in Organizations
Incorporates theoretical and practical aspects of success in organizations. Topics may include how to acquire, maintain, and use power; how to deal with superiors and subordinates; techniques for more quickly rising on the organizational ladder; misuses of power; developing effective relationships; ethical power use. Prerequisites: Mgmt 512.

### Organizational Politics and Power
Evaluates changing ecosystem services in a holistic way, drawing multiple disciplines, including geography, economics, engineering, and geographical and spatial sciences. Introduces methods and models from multiple disciplines to analyze ecosystem services across biophysical, social economic, and cultural contexts. Provides an interdisciplinary foundation for evaluating ecosystem services. This is the same class as Geog 694 and may be taken only once for credit.

### Methods and Models in Ecosystem Services
This course focuses on the specific strategies and tactics used by retail, wholesale, and manufacturing industry professionals to forecast, plan, execute, and achieve sales, inventory, turnover, gross margin, and profit objectives. Hands-on practice will build real-world skills and insight and course will include contributions from industry professionals. Prerequisites: BA 311.

### Competitive Dynamics in the Athletic and Outdoor Industry
Understand the distinctive challenges and insights of the active and outdoor industry. Examine the unique business practices of both manufacturers and retailers in this industry. Study such issues as brand management, customer service, supply chain management, innovation, and sustainability in the athletic and outdoor industry. Prerequisites: BA 311.

### Service Innovation
This course is focused on the issues that confront marketing managers as they address the development of innovative services and service-oriented marketing strategies. It covers new service design and development, standards, strategy, delivery, and service management with special attention to the technology-enablement of service business models. Prerequisites: BA 311.

### Kodály Training: Level I
A two-week intensive introduction to the Kodály approach and its applications in the field of Music Education. Students will participate in pedagogy, folk music, musicianship, materials, and choir classes within the course. Prerequisites: junior standing.

### Kodály Training: Level II
A two-week continuation of the Kodály approach and its applications in the field of Music Education. Students will participate in pedagogy, folk music, musicianship, materials, conducting, and choir classes within the course. Prerequisites: MuEd 480 / 580 or other Kodály Level I coursework.

### Kodály Training: Level III
The third course in the Kodály approach and its applications in the field of Music Education. Students will participate in pedagogy, folk music, musicianship, materials, conducting, and choir classes within the course. Prerequisites: MuEd 481 / 581 or other Kodály Level II coursework.

### Kodály Training: Level IV
The final course in the Kodály approach and its applications in the field of Music Education. Students will prepare a dvd of their teaching and present their projects/dvds for evaluation as well as participate in pedagogy, folk music, musicianship, materials, conducting, and choir classes within the course. Prerequisites: MuEd 482 / 582 or other Kodály Level III coursework.

### Body Mapping for Musicians
Anatomical information about the body in movement for musicians. Topics include sensory awareness, inclusive awareness, standing and sitting at balance, skeletal anatomy of the arms and legs, the structures and movements of breathing, hearing loss prevention, and performance anxiety. Prerequisite: At least one year of experience as a singer or instrumentalist.

9/11/2019:swh 25
### Winter 2013 M PA 413 Civic Engagement: The Role of Individuals

This course provides an overview of the role of the individual in civic engagement processes. Students will develop an understanding of the variety and forms of engagement processes in which individuals participate within local and national governments and public organizations. The course focuses on developing students' ability to critically analyze a variety of civic engagement processes and understand the consequences, limitations, opportunities, and benefits of these various processes. Students will examine whether individuals have equal opportunities to engage in political and social decision-making structures, and how they serve as change agents to address social injustice. Prerequisites: PA 311, 312 or 313.

### Winter 2013 M PA 414 Civic Engagement: The Role of Social Institutions

Develops an understanding of the roles that social institutions (voluntary associations, public interest groups, educational and religious institutions, and nonprofit organizations) play within democratic societies. Additionally, the course investigates the literature on social institutions and social capital, including their historical development, modern forms, social functions, and ways in which they shape individuals' participation in governing processes. Students will examine the relationships among socially sustainable communities, strong social institutions and private interests by analyzing the mechanisms that generate participation and deliberation. Prerequisites: PA 311 or 312.

### Winter 2013 M PA 415 Civic Leadership Integrative Seminar

This seminar is devoted to exploring, investigating, discussing, understanding, and synthesizing the theoretical understandings and practical applications of civic leadership. Students will have an opportunity to reflect upon, synthesize, and showcase their knowledge through development of a portfolio that demonstrates their learning about civic leadership. Prerequisites: One of PA 311, 312 or 313, plus one of PA 412, 413 or 414.

### Winter 2013 M PA 417 Ethical Leadership

Explores potential ethical conflicts faced by leaders in public and community service. The course will provide students with ethical leadership models that will help them judge the ethical compromises that may put personal, professional, organizational, and public service values in conflict with one another. Coursework will include a review of the theoretical concepts that underpin ethical leadership and will explore their practical application through case studies and the experiences of elected and career public officials who have faced ethical dilemmas in public and community service. Prerequisites: PA 312 or 313.

### Fall 2013 M PAH 595 Public Sector Labor Relations

The history and development of public sector labor relations in the United States. This course explores the impact of labor organizations on government activities and the role of public sector managers in responding to unions. The course provides both a historical context for labor relations and a set of precepts for working with labor organizations in public administration. From hospitals, to school districts, regional government, cities, counties, state agencies and even some large nonprofits, this course explores the importance of developing and maintaining a constructive working relationship with the labor organizations that represent the employees of those organizations.

### Fall 2013 W PH 314, 315 Experimental Physics

Starting with a review of global energy trends, this course will cover the major resources of alternative energies (hydropower, wave, tidal and wind energy, solar energy, nuclear fission and fusion), their characteristics, utilization and technology as well as environmental and public impact. Special attention will be given to photovoltaics and solar cell technology. Market developments will also be analyzed based on simple models. Prerequisites: PH 213 or PH 223.

Fall 2013 M TA 374 Topics in Screenwriting 4  Change prefix from TA to FILM.

Fall 2013 M TA 381 Film History I: 1894 to the Second World War 4  A study of the evolution of film language from the silent era to the introduction of sound; how the influences of a broad range of cinematic art movements, including Expressionism, Impressionism, Surrealism and Poetic Realism, contributed to the classical Hollywood style. Also examines the artistic, economic and technological forces that led to the Hollywood studio system and the popularity of genres such as the western, the musical and the gangster film. Prerequisites: TA 131 and sophomore standing recommended. Co-requisite: TA 381L Film History I Lab (zero credits).

Fall 2013 M TA 382 Film History II: Cinema and Modernism (1946-1970s) 4  A study of the major artistic, economic and technological trends of motion picture production during the post-war era; how directors such as Hitchcock and Welles were able to find a unique expression within the parameters of the classical style and the commercial pressures of the studios. Explores how world cinema movements presented aesthetic and political challenges to the Hollywood model. Prerequisites: TA 131 and sophomore standing, or consent of instructor. Co-requisite: TA 382L Film History II Lab (zero credits).

Fall 2013 M TA 383 Film History III: Contemporary World Cinema (1970s – Present) 4  A study of contemporary world film production from the struggles of an independent and avant-garde cinema to the CGI effects of today’s blockbuster. Also examines how world cinema production has adapted to new digital technologies and the demands of a global market. Prerequisites: TA 131 and sophomore standing recommended. Co-requisite: TA 383L Film History III Lab (zero credits).

Fall 2013 N USP 300 Introduction to Urban Studies 4  Introduction to the interdisciplinary field of urban studies drawing on the urban planning, economics, geography, sociology, politics, and the humanities to provide basic concepts for understanding the urbanized world of the twenty-first century. Cities as economic, social, and political systems and ways in which people have thought about cities.

Fall 2013 M USP 301, 302, 303 Community Development Colloquium 4,4,4  Separate sequence; change description.

Fall 2013 M USP 304 Introduction to Community Development 4  An investigation of concepts, models and perspectives of community development practice. Explores social, cultural, religious, political economic and environmental aspects that affect community development practice. Asset-based and sustainable human development models and action research are emphasized. The course utilizes teaching cases and experts from the field and requires substantial reading reflection and discussion.

Fall 2013 M USP 305 Theory and Philosophy of Community Development 4  New approaches to the philosophy of community; theory and comparative practice; and case study of local theory and practice, presentation of an in-depth case study from the Pacific Northwest.

Fall 2013 D USP 302 Methods of Community Development 4  Change course number from 301; change description.

Fall 2013 M USP 303 Community Development Field Seminar 4  Change course number to 460.
Environmental issues and problems are evaluated in the urban context. The course addresses both the origins of urban environmental problems and their economic and social implications. Finding solutions that attempt to achieve balance between social, economic, and ecological factors is addressed in the context of urban environmental policy, planning and community activism.

Community organizing seeks to involve people in collective action to address issues of social change and social justice. This course covers the history, philosophy and goals of community organizing and various elements of the organizing process. Case studies will provide the basis for the development of action plans.

This course examines the relationships between urban form and social patterns, and efforts by urban designers to influence community life by shaping the built environment. The history of ideas about urban form and community development, and the history of proposed and implemented projects will be surveyed, and their relevance for contemporary urban planning and design practices will be assessed. Initiatives in the Portland metropolitan area to enhance community livability will be studied.

This course introduces students to participatory methods, placing special emphasis on research ethics, the positionality of the researcher, and embedding research within community development practice. It focuses on research design, data collection, data analysis, and the dissemination of results. Various approaches to measuring urban phenomena are covered, including basic interview techniques, survey methods, and quantitative analytical methods.

This course uses lab exercises and lectures to help students develop an in-depth understanding and basic skills for the uses of geographic information systems in community development and planning. Prerequisites: upper-division standing.

Participant observation through placement in a community-based organization actively engaged in community development activities on behalf of a specific community, and critical reflection on the placement experience. Prerequisites: completion of the Community Development Core and at least one course or an equivalent from among those listed in Methods in Community Development. Change course number from 303; change description & prerequisites; change credits from 4 to 6.

Urban planning interventions in many cities in the Global South have been facing big challenges as rapid population growth has led to resource scarcity, environmental degradation, and social inequality. This course develops tools and ideas to understand issues confronting cities in diverse socio-economic, political, and cultural circumstances, and how globalization impacts the local space of cities and regions. It focuses on challenges and opportunities in formulating appropriate planning interventions, and prepares planners to work in the diverse and rapidly changing contexts of the Global South.

An introduction to writing with the major forms and techniques of literary nonfiction. Beginning with exercises in foundational skills such as description, reportage and the crafting of personal narrative, students will write and respond to short works of creative nonfiction. May be repeated once for a total of 8 credits. Expected preparation: Freshman Inquiry or equivalent. Change title, description, prerequisites.

Explores various forms of nonfiction, including essay, personal essay, reviewing, immersion journalism, and memoir, with practice writing in each. Prerequisites: Wr 214 or Wr 228, instructor approval required. Change prerequisites.

The history and contemporary use of personal essay as a mode of creative communication: gives an understanding of and practice in this kind of writing. Prerequisites: Wr 214 or Wr 228, instructor approval required. Change prerequisites.
| Fall 2013 M | Wr  | 456/558 | Magazine Writing | 4 | Examines the development of both long- and short-form magazine pieces, as well as the business and economics of magazine publishing. Students write and peer-critique articles in the styles and formats of a variety of publications and magazine departments. Prerequisites: Wr 214 or Wr 228. Instructor approval required. |
| Fall 2013 M | Wr  | 459/559 | Memoir Writing | 4 | Concentrates on elements necessary for writing successful personal narrative, including structure, tone/voice, dialogue, characterization, tense, and point-of-view. Memoirs will be read and discussed, and students will turn in several pieces over the course of the term for workshop discussion. Prerequisite: Wr 214 or Wr 228. Instructor approval required. |
| Fall 2013 N | Wr  | 471/571 | Publishing Software | 4 | Provides a strong base in the software used in the book publishing industry, focusing on Adobe InDesign. Also explores Adobe Photoshop, Illustrator, and Acrobat, as well as XHTML and e-book design. The class considers audience expectations through a range of hands-on design projects. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 472/572 | Copyediting | 4 | Learn how to improve the clarity, coherency, consistency, and correctness of other people’s writing through application of grammatical and stylistic guidelines. Study grammar, usage, punctuation, and style. Narrow focus on editing at the line and substantive level, with little to no attention given to broad development of a manuscript. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 328 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 473/573 | Developmental Editing | 4 | Explores the relationship between an editor, a writer, and the work in process of developmental editing—also known as global, substantive, or comprehensive editing. Examines historically significant editor/editorial relationships, how the editorial process and relationships have changed over time, and how editorial expectations shift based on the expectations of the publisher, the constantly changing global marketplace, and the introduction of new technologies. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 328 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 474/574 | Publishing Studio | 4 | Perform the work of a real publishing house, from acquiring manuscripts to selling books. Gain publishing experience by participating in the various departments of a student-staffed publishing house, Oiolan Press. Departments include Acquisitions, Editing, Design and Sustainable Production, Marketing, External Promotions, Sales, Digital Content, Social Media, and Project Management and Operations. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 328 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 475/575 | Publishing Lab | 4 | Perform the work of a real publishing house, from acquiring manuscripts to selling books. Gain publishing experience by participating in the various departments of a student-staffed publishing house, Oiolan Press. Departments include Acquisitions, Editing, Design and Sustainable Production, Marketing, External Promotions, Sales, Digital Content, Social Media, and Project Management and Operations. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 328 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 476/576 | Publishing for Young Adults | 4 | Study the techniques commonly deployed by writers and publishers of young adult and middle grade literature. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 328 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 477/577 | Children’s Book Publishing | 4 | Study the techniques commonly used by writers and publishers of children’s literature. Prerequisites: Wr 300 or Wr 312 or Wr 313 or Wr 323 or Wr 324 or Wr 327 or Wr 328 or Wr 330 or Wr 333 or Wr 394 or Wr 395. |
| Fall 2013 N | Wr  | 478/578 | Publications Management | 4 | Learn about the traditional business model of book publishing and how that model is changing. Study profit and loss, inventory, negotiation, and other topics fundamental to running a publishing house. Covers both theory and real-world applications. Prerequisites: consent of instructor. |
| Fall 2013 D | Wr  | 550 | Writing About Lives | 4 | |
| Fall 2013 D | Wr  | 554 | Writing About Places | 4 | |
| Fall 2013 D | Wr  | 556 | Writing About Events | 4 | |
| Fall 2013 D | Wr  | 558 | Writing About Ideas | 4 | |

Students will work intensively to develop activist writing projects individually and in collaboration with others. Investigate a variety of forms and sources of activist writing, generate new writing in weekly writing workshops, serve as writing partners/coaches with each other, and work cooperatively to complete community-based, writing-involved activist projects.

An introduction to the theory and practice of feminist non-profit organizations. Attention to the history of feminist non-profit organizations in the U.S., political and social structures that impact such organizations, and decision-making and management issues related to feminist concepts of power. Partnering with a local feminist non-profit, students will gain hands-on knowledge of how feminist organizations strive to put theory into practice. Prerequisites: WS 307 or junior standing.

Consideration of the theoretical, methodological, and empirical contributions of current sociological scholarship on gender. Emphasis on the intersection of gender, sexuality, race/ethnicity, and class. Analysis of topics such as: masculinity/femininity, parenting, family, education, work, sexualities, reproduction, politics, and social change. This is the same course as Soc 425/525 and may be taken only once for credit. Prerequisites: junior standing.
