A Profile of Sophomore Inquiry Students Fall 2019

In order to better understand the students who enroll in Sophomore Inquiry (SINQ) courses and begin to identify areas where they may need support, University Studies (UNST) began collecting and compiling data on these students. This report presents a profile of SINQ students from Fall 2019. It presents an overview of all students enrolled in SINQ during Fall 2019 and then summarizes information from the Prior Learning Survey. It is organized around three areas that contribute to student success: academic preparation and concern; financial and physical wellbeing; and connectedness to campus.

Data Sources:

PSU Data Warehouse: PSU Office of Institutional Research and Planning 4th week student data file, includes demographic and enrollment data for all Fall 2019 SINQ students.

Prior Learning Survey: Survey administered during weeks 1 and 2 of Fall term. 1177 students responded to the survey (52.45% response rate).

OVERALL PROFILE (For all SINQ students, N=2244)

Academic Profile

New students: 32.7% of SINQ students were new to PSU during Fall 2019. The rest began at PSU prior to Fall 2019.
