Overview

1. What’s an accessory dwelling unit (ADU)?
2. Why does Oregon DEQ like them?
3. Development trends
4. Occupancy stats
5. ADU potential
What’s an Accessory Dwelling Unit (ADU)?

An accessory dwelling unit (ADU) is a second dwelling unit on a single family residential lot. They’re also called granny flats, mother-in-law suites, in-law suites, etc.

Why focus on ADUs?

- Mismatch between household size and house size (consumption patterns)
- Single family construction has largest sqft/person ratios
  - 64% of Oregon population in single family detached
  - Good way to introducing smaller SF housing to market
- Multifamily already small
- Most ADUs are urban infill that utilize existing infrastructure
- Nice package that had potential environmental, social, and economic benefits
- Wanted to leverage other momentum in ADU industry

Are ADUs providing housing?

Uses of ADUs in Portland, Oregon USA in 2013 (percent)

- Long-term residence: 79.5%
- Short-term housing: 4.5%
- Work or living space: 11.4%
- No current use: 0.8%
- Other: 3.8%
- Comparable: % of all Portland dwellings actually used as housing

Who lives in ADUs?

![Bar chart showing the percentage of ADU tenants and all Portland tenants by tenant age class:]

- **<25**
  - ADU tenants: 5
  - All Portland tenants: 3

- **25-34**
  - ADU tenants: 40
  - All Portland tenants: 30

- **35-54**
  - ADU tenants: 20
  - All Portland tenants: 25

- **55+**
  - ADU tenants: 10
  - All Portland tenants: 10

Percent of tenants (householders) vs. Tenant age class.
Who owns Portland ADUs?

The chart shows the distribution of ADU owners and all homeowners across different owner age classes. The age classes are as follows:

- 25 years old and younger
- 25-34 years old
- 35-44 years old
- 45-54 years old
- 55-64 years old
- 65-74 years old
- 75+ years old

The chart indicates the percentage of owners in each age class. The bars represent ADU owners in light gray and all homeowners in dark gray. The data shows a higher percentage of ADU owners in the older age groups compared to all homeowners.
How are ADUs financed?

- Cash Savings
- Home equity line of credit
- Out option based on main home value only
- Loan from family member
- Credit cards
- Construction loan from bank
- Personal loan from bank
- Trade of services
- Other
- Missing/Refused
Do ADUs have low environmental impact?

ADU finance guide

ACCESSORY DWELLING UNIT (ADU)
FINANCE GUIDE

OPTIONS

1. Finance with an existing or new main house
   One mortgage for the entire property. Loans based on “as completed” value of the main home + future ADU, which provides the funds needed to construct the ADU.

2. Finance based on existing home equity
   Home equity loans and home equity lines of credit provide funding to build an ADU if you have sufficient “equity” built up in your main home. These are considered “second mortgages”.

3. Finance independently of main home
   Besides personal loans, credit cards, and family loans there aren’t any currently established “second mortgage” options for people who don’t have sufficient equity (option 2) or don’t want to refinance (option 1).

A Practitioner’s Guide to Appraising ADUs

An accessory dwelling unit (ADU) is a small self-contained dwelling, typically with its own entrance, cooking, and bathing facilities, that shares the site of a larger, single unit dwelling. ADUs may be attached, as in the case of a basement apartment, or detached, as in the case of a backyard cottage. An ADU is not a separate property; it has the same owner as the primary dwelling.

Because ADUs are an emerging type of residential development with unique legal uses, real estate appraisers frequently misunderstand how to account for them. We recommend you follow these four steps when appraising any property with an ADU.

1) Ensure ADU is legal and confirm that main house + ADU can be rented.

In the City of Portland and most parts of the Portland metropolitan region, both the main home on the property and a legally created ADU on the lot can be simultaneously rented. In other words, the property owner does not need to live in either unit. These legal, income-producing uses of the property with an ADU may affect your opinion of the Highest and Best Use (HBU) of the property. If the ADU is not in the City of Portland, then it is important to check with the local municipality to find out if both units can be rented. Typically, “owner occupancy” requirements will be listed in the ADU section of a city’s zoning code.

2) Conduct the HBU.

Consider these questions: What are market rents for the main home and the ADU? What are the Gross Rent Multipliers (GRMs) for the area and property type? Does a consideration of rents for the main home and the ADU affect the “best or maximally productive” for the property — does it lead to a higher opinion of value through the income approach?

3) Decide on which approaches to value will be developed in the appraisal.

Based on the HBU, will the sales comparison, cost, and income approaches be developed? The number of approaches being developed will inform the reporting format.

4) Report the findings.

If all three approaches to value are developed, then Fannie Mae form 005 (the 1-4 unit form) may be the best way to report your appraisal results because it provides a simpler income format than Fannie Mae form 004. If using form 004, remember to check the “One with Accessory Unit” box in the Improvements section, and add your rent schedules to the report.
