Dear Ernie:

Thank you for the transcript of your tape of the Clinton Street Theatre night. I enjoyed it a lot, and having the remarks of the rest of the "stage crew" preserved is a nice idea. Also, my staff that missed the event has enjoyed reading it. You should feel good about what you accomplished in such a short time in your adopted city.

I have had very little time to review your modular housing proposal. It may have great potential, but it catches me at a time when I have too much already on my plate. (Not the least of which is the house I owned at the time I married Diana which has not sold, and we continue to make payments on it.)

Thank you for thinking of me. I hope all is well with you and yours. Stop by KOIN Tower one day, and I'll swap lies with you.

All my best,

Neil Goldschmidt

P.S. - The transcript of my remarks seems okay to me. Where they sound illiterate it is merely an accurate reflection of how poorly prepared I was.
