Mr. A. L. Barbur,
Commissioner of Public Works,
Portland, Oregon.

Dear Sir:

As per your request I have taken up with the city attorney the matter of establishing setback building lines on Front Street and the legality of withholding building permits until such time as a definite plan is adopted for the development of the waterfront.

Mr. Grant advises that the present ordinance for the establishment of setback lines must be followed to establish legally a building setback line on Front Street. He also advises that until such a line is established the city cannot legally withhold the granting of building permits.

Yours very truly,

Secretary,

CITY PLANNING COMMISSION
