CITY OF PORTLAND
INTER-OFFICE CORRESPONDENCE
(NOT FOR MAILING)

July 9, 1957

From Dept. of Traffic Engineering
To Dept. of Highway Engineering Coordinator
Addressed to Mr. Fred T. Fowler
Subject Pedestrian Protection on S.W. Harbor Drive

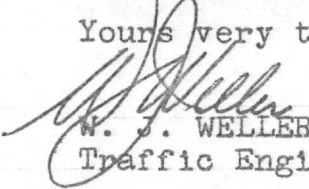

Dear Fred:

During my absence from the City, Don Bergstrom acknowledged communications from Mr. Dee Myers and Mr. Ben Medofsky relative to the protection of pedestrians on S.W. Harbor Drive. Copies of these communications along with acknowledgements to these gentlemen are enclosed.

As you will note, a copy of each acknowledgement was sent to the State Highway Commission. I am also enclosing the original letter from Mr. G. S. Paxson in which he states that no provision is being made for pedestrian overcrossings or undercrossings at S.W. Harbor Drive.

I thought that you would be interested in having this information. It would seem to us that should S.W. Harbor Drive become a freeway, as anticipated, provisions must be made for pedestrian crossing.

Yours very truly,

W. J. WELLER
Traffic Engineer
