Collaboration and Innovation: NNLM’s Nationwide Online Wikipedia Edit-a-Thon Program

Ann Glusker / glusker@berkeley.edu
WITH:
Elaina Vitale / ejv@pitt.edu
Franda Liu / franda.liu@nih.gov
Stacy Brody / stacy.brody@nih.gov
Eight Health Sciences Libraries each function as the Regional Medical Library (RML) for their respective region.

The RMLs coordinate the operation of a Network of Libraries and other organizations to carry out regional and national programs.

NNLM offers: funding, training, community outreach, partnerships to increase health awareness and access to NLM resources.
EDIT-A-THONS

Generally:
- In-person
- Focus on a topic area
- Include an opening talk
- Include instruction on and support for editing
- Participants are provided with suggestions of pages to edit

But what if they need to be national in scope?
NLM is actively engaged in reaching a major strategic goal to “reach more people in more ways through enhanced dissemination and engagement pathways.” The NNLM is the outreach arm of the NLM, charged with:

- Improving the use of NLM resources
- Engaging NNLM members
- Utilizing librarian research skills

What better way to do this than to collaborate to:

- Make Wikipedia a better, evidence-based resource!
- (Librarians haven’t always been on board with Wikipedia as a resource)
ROUND 1: FIRST EDIT-A-THON

- Formed the project planning group
- Talked to the Wikipedia medical community about their needs ([WikiProject: Medicine](https://en.wikipedia.org/wiki/WikiProject_Medicine))
- The choice of topic: rare diseases
- NLM tools - Genetics Home Reference, MedlinePlus, PubMed, and NIH’s Genetic and Rare Diseases Information Center (GARD)
PROMOTIONAL STRATEGIES

TRAINING OVERVIEW

• 1 hour training for network members with Dr. James Heilman, a physician and active WikiProject editor

• Training organized March 19, held March 29

• 67 attended, recording viewed 127 times

URL for recording
PROJECT PAGE AND DASHBOARD

URL for project pages

Content includes:
- Link to WikiProject Medicine’s Doc James training
  - Event information
  - WebEx details and schedule
  - Citation editing basics
  - Resources (including a section for teachers)
  - Information about the dashboard
  - Links to previous NNLM/health-related Wikipedia events

URL for dashboard

Content includes:
- Edit-a-thon statistics (automatically updated)
- General information
- In the weeks before the event, a timeline with tasks
- Event details
- Much more information in tabs, showing edit histories

NEW TO WIKIPEDIA? - In preparation for the edit-a-thon, we had a free webinar from 2:00-3:00pm EST with Dr. James Heilman (Doc James) as he discussed and gave a demonstration on how to edit Wikipedia. You can find the recording here.

#citeNLM2018 Edit-a-thon [edit]

Event Details [edit]
What?
To improve consumer health information on Wikipedia by adding or updating citations using United States National Library of Medicine resources.

When?
Tuesday, April 17th, 2018
9:00am – 9:00pm EST

Who?
NNLM Network Members and Wikipedians
No advanced technical skills required. Log in to Webex using the information below. In addition to periodic announcements and presentations, someone will be available to answer questions in the chat. Check out the schedule below to see the volunteer shifts.

How to Participate/Webex Login [edit]

   3.2 Adding Citations
   3.3 Other Editing Resources
   3.4 Primary Reference List
   3.5 National Library of Medicine Resources
4 For Teachers
   4.1 Overview
   4.2 Using the Dashboard
ON THE DAY

- WebEx room staffed from 9 AM until 9PM EDT (6 PM PDT, 5 PM AKDT, 4 PM HDT)
- Support and information available from NNLM coordinators
- 2 hour shifts, handled by different NNLM regions
- Each started with pre-recorded welcome video from NNCO, and overview
- Live editing with narration, and online chat with participants
- Final slot featured OCLC Wikipedian-in-Residence Monika Sengul-Jones
- Hashtag helped with collecting information about edits, and social media activity

**NNLM Edit-a-thon - Spring 2018**

Are you interested in improving the consumer health information available on Wikipedia? Do you want to utilize your research skills towards making Wikipedia a better, evidence-based resource? Have you always wanted to participate in an edit-a-thon? Join the National Network of Libraries of Medicine on April 17th as we add citations to existing Wikipedia articles on rare diseases! We'll be working on those diseases listed by the Genetic and Rare Disease Information Center, using trusted National Library of Medicine resources like Genetics Home Reference, MedlinePlus, and PubMed.

NNLM staff from across the nation will be available Tuesday, April 17th from 9 am ET to 9 pm ET to support you as you add your citations. Follow along with the fun on Twitter--check for hashtag #citeNLM2018!

You can view full details regarding the event on the #citeNLM2018 Edit-A-Thon page:

**Details**

Facilitators: Alillich, Limitbreakleaf, Librarianx
Institution: National Network of Libraries of Medicine
Expected Editors: 0
Activity tracking start: 2018-03-28 23:00 PDT
Activity tracking end: 2018-04-29 22:00 PDT
Event Start: 2018-03-28 23:00 PDT
EVALUATION/LESSONS LEARNED

• It can be difficult to capture/measure impact for edit-a-thons; think through goals and evaluation as part of planning
• Statistics from the dashboard (only registrants—how to capture non-registrants?)
• Asked editors to put #citenlm2018 in edit summary
• Twitter feed showed some user engagement
• Fewer than expected joined WebEx sessions
• Participants mainly from library community, reflecting marketing
• Helpful to have two hosts at a time
• Importance of hands-on experience of editing for ongoing Wikipedia involvement
ROUND 2: SECOND EDIT-A-THON

Topic: Women’s Health

Date: November 7, 2018
BETTER AND MORE TRAINING!

• 3 sessions, each hosted by two NNLM staff:
  o The world of Wikipedia, why to edit it, and overview
  o Create an account, start editing
  o NLM resources for use in improving articles

• 30 minutes each

• Started early! (the month before)

• Recordings posted and available

https://nnlm.gov/class/wiki_training
https://twitter.com/nlm_news/status/1047562302004838406

NNLM Wikipedia fall Edit-a-thon call for volunteers! Help make Wikipedia a better, more evidence-based resource. Participate in a series of webinars to help you get ready for #citeNL2018 on 11/7/18 bit.ly/2OiweHY
BETTER AND MORE PROMOTION!

What do you get when the world's largest medical library and the world's largest encyclopedia meet up?

Posted by NLM in Focus / August 13, 2018

We think the result is even better than happily ever after.

Because now more people than ever before have more access to credible, evidence-based information on rare diseases.

The anticipation had been building for weeks when medical librarians from all over the country joined forces through NLM's National Network of Libraries of Medicine for an all-day #citeNLM2018 Wikipedia edit-a-thon on April 17.

The event was so successful that rumors have been flying of a sequel next year.

Join us on Wed, Nov 7, for the #citeNLM2018 Wikipedia edit-a-thon to improve Women's Health! Learn how to improve the public's access to evidence-based reliable women's health info. For more info see library.ucla.edu/news

National Network of Libraries of Medicine Sponsors Virtual Wikipedia Edit-a-thon

Did you know that people consult Wikipedia more often than trusted National Institutes of Health and National Library of Medicine resources to look for health information? Studies even suggest that our healthcare providers and students-in-health professions turn to Wikipedia for much of their health research. Recognizing this, a group of national network of Libraries of Medicine (NNLM) coordinators recently organized a virtual Wikipedia Edit-a-thon to

Finding a Women's Health Topic

With so many woman's health-related topics, how do you choose? Wikipedia has a quality scale. C-class, Start-class, and Stub-class articles will probably be the easiest to revise. You can find descriptions of all the different classes here. [Here] is a tabulation of all the articles by quality and importance. It may be helpful in finding a topic to edit.

Data Flash: Wikidata, RDM and Librarians

Posted by Ann Glusker on November 26th, 2018

Posted in: Data Science, News from NNLM, News From NNLM PNR, Technology, Training & Education

Tags: metadata, research data management, wikicite, wikidata

You’ve heard of Wikipedia, but are you familiar with Wikidata? What about WikiCite?

If you are interested to hear more, join us as we host Wikidata expert and librarian Katie Mika, from the University of Colorado Boulder! In this hour-long webinar, she will “introduce the WikiCite initiative (to build a database of open citations to support free and computational access to bibliographic metadata) and will identify simple, high impact ways for librarians to get involved. As experts in the intersection of bibliographic metadata, information discovery, and interdisciplinary research, librarians are a tremendous resource for this community.”

Register for the session (which will be recorded, and a link sent out to registrants). You might also want to check out the link on that page to the NNLM’s Research Data Management Webinar Series, with several recorded sessions already available.

Please send any questions to Ann Glusker, email: glusker (AT) uw.edu. We look forward to learning along with you on Dec. 7!

P.S. If you want some fascinating extra reading before the webinar, check out this article by Katie Mika, “Wikidata and BHL” [Biodiversity Heritage Library]
ROUND 3: THIRD EDIT-A-THON

Third NNLM edit-a-thon will be held at the Medical Library Association’s 2019 conference in May in Chicago; online participation will be supported and encouraged! The topic is **ELEVATING HEALTH EQUITY**

#citeNLM Spring Edit-a-thon 2019  [edit]

**Event Details**  [edit]

**What?**
#CiteNLM Elevating Health Equity Wikipedia Edit-a-Thon

**Why?**
To promote the improvement of consumer health information on Wikipedia by adding or updating citations using United States National Library of Medicine resources.

**When?**
Monday May 6, 2019

**Where?**
Events will be held at the Medical Library Association Annual Conference in Chicago, IL. Additionally, everyone is welcome to host an event at their institution or edit on their own.

**Who?**
NNLM Network Members and Wikipedians
Stay tuned for additional details!
OTHER FUTURE PLANS

• Enhance promotion via Twitter, Facebook, Network communication
• Join and be active in Wikipedia communities
• Involve NIH Institutes
• Collaborate with health care practitioners (one idea: video testimonials of physicians who treat people with rare diseases and impact on patients on having information)
• Idea—encourage editors to use and promote open access resources
• Suggestions welcome!
MISCELLANEOUS RESOURCES!

WebJunction course

Wikipedia + Libraries: Better Together

Libraries and Wikipedia share a common purpose: to provide free public access to knowledge and resources. Wikipedia + Libraries: Better Together was an 18-month OCLC project to strengthen the ties between US public libraries and English Wikipedia. The project ended in May 2018 and the connections, learning materials, stories, and outcomes are still unfolding. Library staff are leveraging Wikipedia to better serve their communities.

Learn from the pathways that library staff have taken with Wikipedia and how you can get involved, too.

- Build Community
- Extend Librarianship
- Amplify Stories
- Teach Literacies

Training curriculum
