"We at PSU think it is important to address textbook affordability as one more piece of the puzzle of reducing the cost of a degree. Through the leadership of our Library Dean, Marilyn Moody, and in collaboration with the Faculty Senate and Associated Students of Portland State University, we created a task force to determine how PSU can lower course material costs for PSU students."

- Sona, K. Andrews, Provost and and Vice President of Academic Affairs.
Make a difference in your students' lives with free, openly-licensed textbooks.

Textbooks every student can access and afford

Open textbooks are textbooks that have been funded, published, and licensed to be freely used, adapted, and distributed. These books have been reviewed by faculty from a variety of colleges and universities to assess their quality. These books can be downloaded for no cost, or printed at low cost. All textbooks are either used at multiple higher education institutions; or affiliated with an institution, scholarly society, or professional organization.

The Open Textbook Library is supported by the Center for Open Education and the Open Textbook Network.
