When Residents Speak and Are Heard - Amazing Things Take Place

Project Client: Main Street Oregon City (MSOC)

Project Location: Oregon City, OR

Five to Nine Consulting, working with Main Street Oregon City (MSOC), is developing a roadmap to residential development in downtown Oregon City.

Bringing residents into downtown will further MSOC's goal of creating a reinvigorated and dynamic urban core.

Residential development downtown will make efficient use of existing infrastructure, help provide a range of housing choices for residents, create community, and decrease the need for further urban expansion elsewhere.

When complete, MSOC and Oregon City will have a roadmap and policy framework for successfully incorporating residential development into downtown.

This work will complement existing site-specific studies and sets the stage for future efforts to redevelop the now-defunct Blue Heron paper mill site at the south end of Main Street.
