Purpose

- Provide information to assist with planning and communications
- Serve as a baseline for monitoring changes in public opinion over time and assist with program evaluation

Methodology

- Telephone survey of 500 Tri-County residents
- Conducted September 8-15, 2011
- Averaged 18 minutes in length
- Quotas for age, gender, education, and county
- Quality control measures including callbacks and validations
- Margin of error +/- 4.4%, at 95% confidence level

(For a sample size of 500, if the respondents answered a particular question in the proportion of 90% one way and 10% the other, the margin of error would be +/- 2.6%. If they answered 50% each way, the margin would be +/- 4.4%.)
