*Graduation rates are calculated as the total number of completers within 150% of normal time, divided by the total number of students in the beginning cohort.

**Includes both undergraduates who have no prior postsecondary experience and those who had earned college credits before graduation from high school. Note: This is different from "transfer students," who earn postsecondary credits between graduating from high school and entering a 4-year institution.

**IPEDS graduation rates compared to PSU's
internal graduation rates**

	Fall 2007	Fall 2008	Fall 2009
IPEDS	42%	42%	42%
PSU*	40%	40%	41%

* PSU internal graduation rate includes freshmen new from high school, with 30 or fewer college credits. IPEDS includes entering students with college credit earned in high school--could be more than 30 hours.
