

# WHO VOTES FOR MAYOR?

## Phoenix

**Voter turnout is shockingly low in elections for mayor and other local officials across the United States. For the most recent round of mayoral elections in America's 30 largest cities, turnout of eligible citizens in 15 of them was less than 20%.**

Turnout in Phoenix's August 25, 2015 mayoral election was lower than in many cities, with just over 15% of the city's eligible citizens casting a ballot. Phoenix neighborhoods where voter turnout exceeded the city average had a higher share of residents 65 years and older; a lower share of racial/ethnic minorities; and a higher percentage of owner-occupied homes.
