

5/11/04 – The list was updated on May 11, 2004 to add *Iris tenax* var. *gormanii*.

5/14/04 – The following changes were made: 1) for *Cordylanthus maritimus* ssp. *palustris*, common name changed from salt-marsh bird's-beak to Pt. Reyes bird's-beak, 2) *Lomatium tracyi* removed from the list, not documented from Oregon, 3) for *Lupinus breweri* var. *breweri*, Heritage State Rank changed from S1? to S3, Heritage List changed from 2 to 4, and 4) for *Silene lemmonii*, Heritage List changed from 2 to 3.

3/17/05 – Typographical error was corrected. Federal Status of PS was removed from *Navarretia leucocephala*.

Rare Plant Species

A list of rare, threatened or endangered plants of Oregon which includes for each taxon: scientific name, common name, Heritage Global Rank, Heritage State Rank, Federal Status, State Status, Heritage List number, Oregon county distribution, Oregon ecoregion distribution, and other states or provinces in which it has been reported to occur.

Scientific name generally follows the accepted nomenclature of Oregon State University's Oregon Flora Project.

Global and State Heritage Ranks follow the Heritage ranking protocol of NatureServe and outlined on their web site (<http://www.natureserve.org/explorer/ranking.htm>).

Federal Status is from the U.S. Fish and Wildlife Service.

State Status is from the Oregon Department of Agriculture.

Counties listed in the Oregon County Distribution column have been culled from herbarium collections, literature or reputable sighting reports or personal communications. If ORNHIC found the information unclear, then a question mark was denoted after the county name.

Ecoregion distribution information is based on the map developed by: Thorson, T.D., Bryce, S.A., Lammers, D.A., Woods, A.J., Omernik, J.M., Kagan, J.S., Pater, D.E. and Comstock, J.A., 2003. Ecoregions of Oregon. More information and a digital copy is available at http://www.epa.gov/wed/pages/ecoregions/or_eco.htm

The web sites for NatureServe (www.natureserve.org) and the Plants National Data Base (<http://plants.usda.gov/>) were used to gather information for State and Province distribution listed in the Other States column.

List inclusion and placement is based on the results of rare plant conferences held in 1976, 1977, 1982, 1984, 1986, 1988, 1990, 1992, 1994, 1997, 2000 and 2003.
