VANPORT
REBORN
IN MEMORIAM...

RAY LAPHAM
Ever Young Scholar-Hunter
Born 1893—Died 1948

Ray Lapham, who taught freshman composition and vocabulary building at Vanport, was born in Vancouver, Washington, and grew up on Portland’s East Side. He took his B.A. degree from Reed College in 1919 and his M.A. in English from the University of Oregon.

Mr. Lapham died as he would probably have wished to die—hunting ducks with two of his students during the Christmas holidays. In his younger days he was a high school athletic coach and served with the United States Marines in China; throughout his life he was a sportsman and lover of the outdoors.

We at Vanport have missed him; we have missed the old jalopy that he used to drive, the old pipe he used to smoke, and the battered felt hat that seemed to be a part of him. Also we have missed his sound advice and his way of teaching the valid and vital ideas of good writing.
For a second time the staff dedicates an issue of the Viking to a man without whom there would be no Viking — our director, Dr. Stephen E. Epler. Out of nothing he created Vanport College in 1946; out of little more he has re-created it during the past year. The will to survive that has carried us through this critical year has been but an extension of his own never-failing patience, courage and optimism.
Philip H. Putnam, our assistant director, literally waded out of the Memorial Day Flood to take a doctor’s degree and to be offered an important position in the State Department of Public Instruction. He loyally chose, however, to resume his position as Dr. Epler’s genial and resourceful second-in-command and has remained to play a decisive role in the physical and spiritual rebuilding of Vanport College.
OUR DEANS

One of the most active and cooperative members of the administration is our Dean of Women, Mrs. Catherine Weaver. She has sponsored and encouraged many activities to promote the participation of women students in school activities. She has welcomed and counselled all the new girls and has helped them adjust themselves to the school. The girls of Vanport wish to express their deepest thanks for her friendliness and generosity.

Returning Rhodes Scholars invariably testify to the educational magic that lies in being quietly "smoked at" by one's Oxford tutor. Richard B. Halley, our Dean of Men, effectively employs much the same technique. An interview with him is not an ordeal to be dreaded, but a smoke-wreathed session of gentle probing and helpful hints during which even the knottiest student problems somehow seem to evaporate.

A DAY WITH
DR. EPLER

Student Council Advisor
A LONG YEAR
Highlight of a crowded year of crisis and struggle was passage by the 1949 Oregon State Legislature of House Bill 213 providing for the purchase by the State of the old Lincoln High School building as a permanent home for Vanport College and other units of the Extension Division in Portland. This bill, co-sponsored by Representatives John D. Logan and Rudie Wilhelm, Jr., of Multnomah County, for the first time gave Vanport some tangible, long-range guarantee of an assured future. For administration, staff, alumni, and students it signified the end of the experimental, emergency phase of the junior college program that they struggled so long and hard to build and its acceptance by the people of Oregon as an established and necessary part of the State System of Higher Education.

The occasion was properly commemorated by a virtual holiday on April 20, marked by a special assembly and luncheon at which Representatives Logan and Wilhelm were featured guests, along with Congressman Homer D. Angell, officials of various governmental agencies, and others who had shown a sympathetic interest in the college during the three years of its existence. Fifteen engraved pens, which by special request Governor McKay had used in signing the bill, were presented as souvenir tokens of appreciation to those chiefly instrumental in pushing it through the legislature, including John Hakanson, former Vanport student now at Willamette University, who was its original author.
"Build thee more stately mansions, O my soul, as the swift seasons roll." During the past year Vanport College has been doing just that.

May 30, 1948, was indeed a sad day. On that day occurred one of the worst disasters in the history of the Northwest, the Vanport flood, submerging our old "U by the Slough" under fifteen feet of water.

It looked like the end for the school that had just celebrated its second birthday. Only the material things were destroyed, however; the spirit of the school lived and a determined, resourceful group of students and faculty members gathered up the pieces and decided to carry on. This wasn't easy. The Portland Teachers Credit Union and the Veterans Administration gave the college temporary office space first in the Education Center Building and then the old Elks Building. There was no assurance of a summer session, however, until Grant High School graciously provided classroom space and other needed facilities. There we pitched camp for the summer.

There still remained the question of whether there would be a Vanport College in the fall. The State Board of Higher Education had approved continuation for another year, but there was the unsolved problem of a suitable plant and the further question of whether any available could be readied in time for registration in September.

The first problem was solved when the Federal Work Agency arranged with the Oregon Ship Corporation to let Vanport Extension Center have the administration building at Oregon Shipyard rent free. Before it could be used, however, the basement, which had been flooded, had to be cleaned out, and the offices on the first and second floors had to be converted into classrooms.

When September came, much work was still to be done. We sat on chairs without writing surfaces; there were no blackboards or any of the other classroom conveniences; the building was filled with smell of fresh paint and the noise of hammering, sawing, and other construction work. No one complained, however, and school started as though nothing had happened.

During the fall term it was not easy to adjust ourselves to the new Vanport, superior though it is in many ways to the old. It was almost like living the summer and fall of 1946 all over again. Now, however, thanks to administrative planning and the tireless efforts of Les Eggleson and his maintenance crew, we are once more able to study in a normal academic environment. Vanport College has been reborn.

A lot of courage, resourcefulness, and ingenuity have gone into making Vanport "the college that would not die." This book records the ups and downs of that struggle.
Willamette Hall floated twenty-five feet back from its brick foundation, turned in the water and then wedged itself between four trees. Later, it, together with the homes of student and the college director — burned.

This is where history was taught and made.
Portland Hall, which was our recreation building, was moved from its foundation and carried some distance away. Coach Joe Holland, assisting salvage operations, is shown above.

To the left of the dike break, the roofs of the college can be seen partly covered by the flood waters. The large "L" shaped roof was Columbia Hall, Administration building.
One library wall. A few remaining books can still be seen on the shelves.

SOCIAL PROGRAM
AWS was organized to serve the school and further social and cultural aims. The girls were active during Homecoming Weekend; they assisted with arrangements and decoration for the banquet and the large reception tea. A "get acquainted" tea was given to welcome new students during the winter term. The girls served the noon lunch anniversary day and sponsored one dance. They were also active in campaigning to promote Vanport as a permanent college. Mrs. Mildred Flanagan is the club’s advisor.

The girls of Vanport wish to express their sincere appreciation for the help and guidance that Mrs. Flanagan has so freely and generously given. Her friendly and cheerful manner have been a constant source of inspiration and encouragement.

Appreciatively . . . Women Students of Vanport.

Lou Olivera and Bette Blake
Delta Tau Rho Fraternity, Beta Chapter, was established in the spring term of 1947. They pledged themselves to support and to work for the betterment of the school. In fulfilling this pledge they have placed men on the football, basketball, ski, track, and boxing teams along with participating in the student government. They also sponsored the successful “Friday Surprise”, “Spring Time”, and “Paris Apache” dances.

Richard Smith has served as their advisor since the beginning of the fraternity at Vanport.
The Deltas dance, "Treasures in Silhouette" was given winter term
The Sigma Delta Omega fraternity is now a going organization on the Vanport campus. This new fraternity and its constitution have been officially recognized by the school. Some of the various activities of Sigma Delta Omega will be the sponsoring of free noon movies, a gala dance, and whole-hearted cooperation in services to the school. It is the aim of this organization to create closer and more general friendship among the students of Vanport College.

Vince Dulcich, our student body president, until he resigned April 5 to accept a fraternity presidency at the University of Oregon, held this office for most of the year. In both the fall and spring student elections, Vince won by sweeping majorities, polling more votes than any other candidate in the school’s history.

Vince is a 23-year-old veteran and is majoring in physical education. He played tackle on the football team and has been active in drama productions. After nearly two years at Vanport, Vince plans to complete his college work at the University of Oregon.
He must be coming, but when? Has anyone seen Dulcich?

Wait, Wait, hold the dessert, our president is here.

Please, Mrs. Halley, wait for the host.

Ah! Gee Whiz! I didn't mean to be late.

The Vanguard this year has been working under more of a handicap than in years gone by. In the past, advertising was a minor matter; it wasn't hard to sell and didn't have to be sold. This year, however, half of the printing cost has had to be met by advertising, which has been difficult to obtain because of worsening economic conditions. Nevertheless, to the accompaniment of the usual lively barrage of student criticism that is a Vanport tradition, the paper has been published regularly under the editor's direction, first of Wm. Van Troyer and then of Roy Bouse. Mr. Arthur Crookham is advisor.

Because of the flood and limited funds the activities of the school have been curtailed and the money allotted for yearbook publication has been the lowest ever. The Viking staff has tried to meet all handicaps and yet publish a complete and interesting yearbook. We regret that we were unable to include individual student pictures because of limited funds. In the future we hope the school will produce a larger and more complete yearbook.

The Viking staff wants to express its sincerest gratitude to Mr. Albertson for his help and wishes him the best of luck when he leaves Vanport in June to become a student at New York University, where he will study for his Doctor's degree.

Mr. Richard Halley, Vanport.
Rabbi Saul Appelbaum, Cong. Beth Israel.
Father Martin Theland, Vice-Prin., Central Catholic High.
The Speakeasies Club was organized in the spring term of 1949. The objects and procedures are similar to those of the Toastmasters and are designed to improve the speaking ability of the members and give instruction in the art of toastmastership. In addition, the club plans and executes special programs and projects during the school year.
Unheralded though it was, the debate squad maintained the best batting average among Vanport's competitive teams — a tribute to the school's primary function.

Vanport sent teams and individuals into five tournaments. In each, we had men in the finals. In an all-Western states tournament at Seattle, one of four Vanport entries made the last round. So it was at Tacoma two months later where one two-man team and one individual advanced to the finals. The Linfield College forensic meet saw one debate duo and a lone speaker go to the last event before being retired. The team of Lorenz (not in picture) and Grimsted won third place at the all debate tourney at St. Martin's College in Olympia, Washington.

Publication deadline precluded a report on the Missoula, Montana, forensic event, but the whole squad was in a mood to remove the "always a bridesmaid" stigma.

The highlight of the year was a Town-Meeting Tournament sponsored by Vanport. Under the direction of Mr. Frank Roberts, and with the assistance of his sixteen apostles, 30 college students from 10 schools appeared before 40 Portland audiences speaking on the topic, "What should we do about communists and communism in the United States?" Both the speakers and the service clubs, high schools, and colleges which provided the audiences were loud in their praise of this unique affair. Look for a bigger and better event next year!

All credit is due the Forensic Squad for its contribution in reminding folks all over the Northwest that the flood washed away everything . . . except Vanport College.
"Two Orphans", a melodrama presented fall term under the expert direction of Dorothy Clifford.

The cast gave several request performances for audiences varying from the Molalla P.T.A. to Barnes Hospital.

Two brothers fighting for the love of a blind orphan. Their beggar mother is striving to prevent violence.
Pete Howard. Leading man

Phyllis Kirtley. French showgirl, on trial for murder of her elderly husband.

“Ladies of the Jury” was a penthouse theatre style production given in the sky room of Vanport College. The show offered a variety of laughs and humorous moments.

Vanport’s 1949 wrestling team had a very good season considering the strong competition they were matched with. Several men made outstanding records, and many new performers were brought to light during a rough year in which five dual meets, one tri-way meet and two championship tournaments were participated in by the Vanport matmen.

Vanport wrestlers were then entered in the Northwest YMCA Championships in which they were directly responsible for winning the title for Portland. Teams from Spokane, Tacoma, Seattle, Yakima, Salem and Portland were entered.
Coach Arba Ager experienced quite a season, with the finale coming in the National Invitation Tournament at Seattle, Washington, with four teams competing. The "green machine" copped third place.

Statistics as follows:

- Played: 26
- Won: 14
- Lost: 12

As baseball season rolls around we find the 1949 edition of the Vanport ball club definitely as strong as if not stronger than the 1948 aggregation. Last year's team finished an impressive season, winning 10 and losing 11 games; which included wins over such strong teams as Portland University, Lewis and Clark, and Linfield, to mention only a few.

This year's team is considerably weak in the returning letterman department, having only 5, but is fortunate in having a number of recent high school stars and transfers from larger schools who have filled vacant spots very well.
