This Minutes is brought to you for free and open access. It has been accepted for inclusion in Joint Policy Advisory Committee on Transportation by an authorized administrator of PDXScholar. For more information, please contact pdxscholar@pdx.edu.
Meeting: JOINT POLICY ADVISORY COMMITTEE ON TRANSPORTATION
Date: November 9, 1989
Day: Thursday
Time: 7:30 a.m.
Place: Metro, Conference Room 440

*1. MEETING REPORT OF OCTOBER 12, 1989 - APPROVAL REQUESTED.

#3. TRANSPORTATION 2000 STATUS - INFORMATIONAL - Andy Cotugno.

#4. STATUS REPORT ON ESTABLISHMENT OF AN ORGANIZATIONAL STRUCTURE FOR NORTH-SOUTH LRT STUDIES - INFORMATIONAL - Andy Cotugno.

#5. SURFACE TRANSPORTATION ACT UPDATE REVIEW - INFORMATIONAL - Dave Williams.

*6. RECOMMENDATION OF JPACT MEMBERSHIP COMMITTEE FOR JPACT MEMBERSHIP BYLAWS - APPROVAL REQUESTED - Andy Cotugno.

*Material enclosed.
#Available at meeting.

NOTE: Overflow parking is available at the City Center parking locations on the attached map, and may be validated at the meeting. Parking on Metro premises in any space other than those marked "Visitors" will result in towing of vehicle.
DATE OF MEETING: October 12, 1989

GROUP/SUBJECT: Joint Policy Advisory Committee on Transportation

PERSONS ATTENDING: Members: Acting Chair George Van Bergen, Metro Council; Richard Devlin (alt.), Metro Council; Earl Blumenauer, City of Portland; Don Adams (alt.), ODOT; Pauline Anderson, Multnomah County; Ed Lindquist, Clackamas County; Gary Demich, WSDOT; James Cowen, Tri-Met; Scott Collier, City of Vancouver; Clifford Clark, Cities of Washington County; Wade Byers, Cities in Clackamas County; Fred Hansen, DEQ; Bonnie Hays, Washington County; and Marge Schmunk, Cities in Multnomah County

Guests: Councilman Craig Lomnicki (JPACT alt.), City of Milwaukie; Mayor Gussie McRobert (JPACT alt.), City of Gresham; Keith Ahola (JPACT alt.), WSDOT; Councilor David Knowles, Metro Council; Bruce Warner, Rod Sandoz and Walt Peck, Washington County; Tom VanderZanden, Clackamas County; Bebe Rucker, Port of Portland; Ted Spence and Denny Moore (Public Transit), ODOT; Leslie White and Kim Chin, C-TRAN; Gil Mallery, IRC of Clark County; Steve Dotterrer, Chris Beck and Grace Crunican, City of Portland; Molly O'Reilly, Forest Park Neighborhood Association; Lawrence Benedict, Stoudt for Metro campaign; Peter Fry, Central Eastside Industrial Council; Lee Hames, Tri-Met; Kathleen Maloney, 1,000 Friends of Oregon; and Meeky Blizzard, STOP

Staff: Andrew Cotugno, Richard Brandman, Keith Lawton, Bill Pettis, Ethan Seltzer, Harlan Miller (FHWA intern), and Lois Kaplan, Secretary

MEDIA: Robert Goldfield, Daily Journal of Commerce

SUMMARY: The meeting was called to order and a quorum declared by Acting Chairman George Van Bergen.
Chairman Van Bergen welcomed and introduced the following new JPACT members: Councilman Craig Lomnicki of Milwaukie (serving as alternate for the cities of Clackamas County) and Mayor Gussie McRobert of Gresham (serving as alternate for the cities of Multnomah County).

MEETING REPORT

The September 14 meeting report was approved as written.

ADOPTING THE SOUTHEAST CORRIDOR STUDY FINDINGS, RECOMMENDATIONS AND SOUTHEAST CORRIDOR TRANSPORTATION IMPROVEMENT PLAN

Richard Brandman explained that Resolution 89-1108 would adopt the findings of the Southeast Corridor Study. The resolution was tabled at JPACT's July 13 meeting because of concerns from the City of Milwaukie. Those concerns have since been addressed; Metro will coordinate with the City of Portland and ODOT to ensure that traffic counts will be conducted prior to and following completion of the Tacoma Overpass.

Action Taken: It was moved and seconded to recommend approval of Resolution No. 89-1108 adopting the Southeast Corridor Study findings, recommendations and the Southeast Corridor Transportation Improvement Plan. Motion PASSED unanimously.

ESTABLISHING THE REGION'S PRIORITY HIGHWAY PROJECT IMPROVEMENTS FOR INCLUSION IN THE 1991-1996 ODOT SIX-YEAR HIGHWAY PROGRAM

Andy Cotugno reviewed the changes incorporated in Exhibit A to Resolution No. 89-1134 that defines the region's priorities for highway improvements for inclusion in ODOT's Six-Year Highway Improvement Program (1991-1996).

Andy then reviewed the letter received (and distributed) by Sensible Transportation Options for People (STOP) requesting that the region not move forward with any of the following:

- I-205/Western Bypass Interchange (PE/ROW)
- I-5 to Sunset Highway (PE)
- I-5 to Highway 99W (ROW)
- Boones Ferry Road Bypass to I-5 (PE/ROW)

Don Adams assured the Committee that right-of-way money will not be spent on the Western Bypass until all alternatives have been examined and a decision is made on which alternative to implement. Programming of funds for right-of-way is proposed for use in whatever highway project results from the study. The PE
project involves a general study area and includes other alternatives, including transit improvements without a bypass and a no-build scenario. He noted they are conceptual at this time and that a specific corridor has not yet been identified.

Commissioner Blumenauer questioned whether there is a Citizens Advisory Committee process for the Western Bypass. In response, Don Adams indicated that it is just getting underway. He noted that there has been an initial management, steering group and TAC meeting but no CAC established as yet. A number of people have been interviewed in Washington County and an attempt is being made to balance the participation on that committee.

Molly O'Reilly, Forest Park Neighborhood Association, commented that the PE funds allotted for the Western Bypass are greater than needed for the study and she understood that a lot of engineering planning was being done. She expressed concern over the composition of the Citizens Advisory Committee, questioning its objectivity if it consisted primarily of bypass supporters.

Don Adams responded that there is no engineering going on at this time. He acknowledged that drawings, however, need to be completed by engineering staff. He also noted that the steering and management groups were patterned after Tri-Met's committee structure for involvement. ODOT has formed a TAC who reports to the management group. He noted that the CAC will include neighborhood representatives, STOP, business interests, and supporters of the Western Bypass. All concerns and issues will be heard from any group and will be weighed in a process that needs some balance between opinions and facts.

Meeky Blizzard, President of STOP, suggested that the "study" be identified for funding, as opposed to a specific Bypass project. Don Adams disagreed, stating that the purpose of the Six-Year Highway Program is to reserve the funds for the future if an alternative is selected. If, however, a transit project is selected, ODOT will stop with its project and pass it along to the transit agency.

Action Taken: It was moved and seconded to recommend approval of Resolution No. 89-1134 as presented establishing the region's priority highway project improvements for inclusion in the 1991-1996 ODOT Six-Year Highway Program. Motion PASSED unanimously.

REGIONAL TRANSPORTATION ACTION PLAN

Andy Cotugno provided an overview of Transportation 2000's Regional Transportation Action Plan that represents the next phase of the Transportation 2000 program. It primarily focuses
on two major areas: 1) decisions on use of the local option vehicle registration fee; and 2) decisions for the next legislative session.

Andy reported that May 15 has been slated for a vote on the statewide constitutional question but no date has been set regarding imposition of the vehicle registration fee. Issues still being discussed include whether the full $15.00 amount should be levied for transit, roads, or both, or for an Arterial Program and who shall levy the fee. Concern was noted from several jurisdictions regarding the survey work to be done to establish priorities and the financial information that is needed.

Andy spoke of the importance of having Transportation 2000 tied into the decision process, the need for a jurisdictional sign-off through intergovernmental agreements, JPACT's program needing to be tied into the state program, and the need to coordinate with the Strategy Committee. Andy noted that Mike Ragsdale would like the Strategy Committee to report to the Transportation 2000 and JPACT committees and include a city representative, Gussie McRobert.

Commissioner Lindquist read a Clackamas County Board of Commissioners' letter (distributed at the meeting) relating to proposed recommendations for use of the increase in motor vehicle registration fees. He asked for JPACT response in the next few months so that Clackamas County can tie it to the political campaign and the need to preserve the I-205 corridor for future LRT.

Mayor McRobert felt that one aspect of LRT that should be addressed is the need for additional bus connections to make the light rail system complete. She emphasized the need to ensure support of buses for the LRT routes, noting that shuttle service is inadequate. In this regard, Commissioner Lindquist noted that there is no bus line down the I-205 corridor.

James Cowen indicated similar concerns and added that Tri-Met has a different interpretation on the use of Section 3 funds and other ideas about how to spend the $5 million Regional Interstate Transfer Reserve. He agreed with Mayor McRobert of the need for additional bus service to serve LRT but added that the benefits of LRT are still there without the additional bus service.

Clifford Clark raised questions regarding the Transportation 2000 Subcommittee, which is composed of a combination of public officials and representatives, inasmuch as there were two Multnomah County representatives on the committee. Others suggested the need to broaden that membership.
Andy noted some of the shortcomings of the legislature included a drop in the local option vehicle registration fee from $20.00 to $15.00; also not adequately funding the bus side of the transit program. If we proceed with LRT, we need to have another recommendation for funding the bus side of the program.

Andy reported that Congress is considering eliminating some or all of the rules concerning Section 3 funds. A decision will be made in the Appropriations Bill within a week but will have a one-year limitation.

Councilman Collier felt that the Board of Commissioners' letter represented a political shift rather than a rational process inasmuch as the recommendations were not based on ridership data. Commissioner Lindquist spoke of the unavailability of such data for the I-205 corridor. Commissioner Blumenauer pointed out that Metro has generated such a model.

Fred Hansen felt that it is premature for JPACT to consider the specifics of Clackamas County's recommendations and that it should initially be addressed by the Transportation 2000 group that is evaluating the alternatives. Commissioner Lindquist stated Clackamas County's need to have a specific program in place to go before the voters next May.

**JOINT IRC/METRO RESOLUTION ESTABLISHING A PORTLAND-VANCOUVER HIGH CAPACITY TRANSIT TASK FORCE**

This proposal would establish a special task force to oversee the Bi-state Study adopted by JPACT in July. Andy Cotugno indicated that staff recommends not to act on the resolution at this time to allow sufficient time to coordinate this work program with other studies.

Councilman Collier stated that there needs to be an oversight committee for the funds that have been appropriated for the Bi-state Study.

James Cowen indicated he would be supportive of the resolution but took exception with the third Resolve insofar as the language cited membership on the High Capacity Transit Task Force as "elected officials or the executive directors from the member jurisdiction." He felt it was premature as it has not been decided whether membership on JPACT should be limited to Executive Directors or Board members. He suggested that the language be changed to include officials or members of JPACT.
Commissioner Blumenauer felt that the one city whose terminus is affected, Milwaukie, is not represented on the Committee list. He further suggested that the Port of Portland have representation on the committee because of its relationship to the projects and potential funding from the Port.

Andy questioned whether this will be the committee that serves as the I-205 LRT oversight committee or whether its focus will be strictly on bi-state travel across the river.

Don Adams felt that the alternatives that might be examined would have a significant effect on air quality and therefore a representative from DEQ would be desirable.

Gary Demich reported that there are presently 11 people proposed to be on the committee, seven of which have vested funding interests. He felt that input is needed from Milwaukie on the Steering Committee but questioned adding many more if it were to remain an effective working group.

Councilor Devlin pointed out that C-TRAN is listed for membership on the Task Force but is not a JPACT member as yet.

ADJOURNMENT

There being no further business, the meeting was adjourned.

COPIES TO: Rena Cusma
Dick Engstrom
JPACT Members
CONSIDERATION OF RESOLUTION NO. 89-1165 FOR THE PURPOSE OF AMENDING THE FY 1990 UNIFIED WORK PROGRAM (UWP) TO INCLUDE AN ALTERNATIVES ANALYSIS/DEIS FOR THE HILLSBORO SEGMENT OF THE WESTSIDE LIGHT RAIL

Date: October 19, 1989 Presented by: Richard Brandman

PROPOSED ACTION

Adoption of this resolution would amend the FY 1990 Unified Work Program to include an alternatives analysis between 185th Avenue and the Hillsboro Transit Center. The components involving a financial obligation are consistent with the adopted FY 1989-90 Metro budget.

TPAC has reviewed this UWP amendment and recommends approval of Resolution No. 89-1165.

FACTUAL BACKGROUND AND ANALYSIS

There is widespread support within the region to perform an analysis of light rail from 185th Avenue in Washington County to the Hillsboro Transit Center. Those in support include Senator Hatfield, Congressman AuCoin, Washington County, the City of Hillsboro, the Westside Corridor Project Steering Committee and the Tri-Met Board. JPACT also endorsed such an effort at its meeting May 11 of this year. In addition, Congress is expected to pass language which would direct the U.S. Department of Transportation to approve the region's request to begin the Alternatives Analysis process.

This resolution would amend the Unified Work Program to allow work on the Hillsboro Segment Alternatives Analysis/DEIS to commence. The funds to perform the work elements shown will be UMTA Section 9 funds with local match from Metro and the participating jurisdictions.

EXECUTIVE OFFICER'S RECOMMENDATION

The Executive Officer recommends approval of Resolution No. 89-1165.
BEFORE THE COUNCIL OF THE
THE METROPOLITAN SERVICE DISTRICT

FOR THE PURPOSE OF AMENDING THE FY 1990 UNIFIED WORK PROGRAM TO INCLUDE AN ALTERNATIVES ANALYSIS DEIS FOR THE HILLSBORO SEGMENT OF THE WESTSIDE LIGHT RAIL

RESOLUTION NO. 89-1165

INTRODUCED BY
MIKE RAGSDALE,

PRESIDING OFFICER

WHEREAS, the FY 1990 Unified Work Program was adopted by Resolution No. 89-1071; and

WHEREAS, JPACT endorsed studying the feasibility of a light rail line to Hillsboro in May, 1989; and

WHEREAS, Metro has worked cooperatively with concerned local jurisdictions to prepare a Work Scope, Grant Application and a Request to Commence Alternatives Analysis in the Hillsboro Corridor; now, therefore,

BE IT RESOLVED:

1. That the Council of the Metropolitan Service District amends the FY 1990 Unified Work Program to include an Alternatives Analysis/DEIS in the Hillsboro Corridor work element as reflected by the budget in Exhibit A.

2. That this amendment is consistent with the continuing, cooperative and comprehensive planning process and is given positive Intergovernmental Project Review action.

ADOPTED by the Council of the Metropolitan Service District this ___ day of ____________, 1989.

Mike Ragsdale, Presiding Officer

### Continue 2 cents / gallon state gas tax increase
Changes Since Transportation Funding Program was Adopted

A. State Legislation

1. Transit funding requests fell short:
   a. Payroll tax was adopted for local governments but not schools and nonprofits, reducing revenue estimates from $7.9 to $3.1 m./year (after five-year phase-in).
   b. State-shared revenue for routine capital was not adopted; nor was the Tire and Battery Tax to fund this program; reducing anticipated revenues by $3 m./year. However, $5 million in video lottery funds were authorized.

2. Local authority to impose a vehicle registration fee was approved with a $15.00/vehicle cap rather than $20.00/vehicle as requested and without trucks; reducing anticipated revenues from $20 m./year to $13.5 m./year. This makes it more difficult to fund both arterials and LRT.

3. Other components of the package were successful and will allow progress on those elements of the transportation plan.
   a. An additional 2-cent gas tax, $5.00/vehicle registration fee provides continued funding towards ODOT's Access Oregon Program.
   b. State highway funds to be distributed to local governments will be $16 m./year at full implementation, thereby reducing road maintenance and preservation shortfalls from $29-60 m./year to $13-44 m./year (note: these figures reflect a growing shortfall each year through 2000 due to growing costs and static revenues).
   c. Increased cigarette taxes of one cent/pack will fund increased elderly and handicapped service at $1.2 m./year.
   d. A state Light Rail Construction Fund was established providing the vehicle for future appropriations of funding for one-half the local match on LRT corridors. $5 million a biennium of video lottery proceeds were authorized for this fund.
B. Federal Actions

1. A 75 percent federal funding commitment to the Westside LRT is imminent and must be executed within the next 1-2 years. This requires that local sources be committed.

2. The I-205 buslanes have been withdrawn and the funding can be transferred to LRT. After completion of the Alternatives Analysis/DEIS, $15.4 million will be available. In order to initiate AA/DEIS, it was necessary to commit in the resolution that the region would not seek UMTA Section 3 funding for the phase of the project that is recommended by the AA/DEIS for immediate implementation. If the project is segmented, we left open the possibility of seeking Section 3 funding for a later segment.

3. Congress appears to be moving away from the previous "one corridor at a time" policy. This could allow more corridors to be pursued concurrently. Authorization and funding are available to proceed with Alternatives Analysis/DEIS for the Milwaukie LRT corridor and the Westside LRT extension to Hillsboro.

C. Local Actions

1. Washington County has approved a $10 m./year, six-year arterial levy, thereby reducing the needs for funding for the 10-year priorities. Overall, the regional needs have changed as follows:

<table>
<thead>
<tr>
<th></th>
<th>Previous</th>
<th>Current</th>
</tr>
</thead>
<tbody>
<tr>
<td>ODOT Arterials</td>
<td>$10 m./yr.</td>
<td>$10 m./yr.</td>
</tr>
<tr>

<td>$20 m./yr.</td>
<td>$15 m./yr.</td>
</tr>
<tr>
<td></td>
<td>$30 m./yr.</td>
<td>$25 m./yr.</td>
</tr>
</tbody>
</table>

D. Revised Project Costs/Needs

1. LRT costs have been revised as follows:

<table>
<thead>
<tr>
<th></th>
<th>Previous</th>
<th>Current</th>
</tr>
</thead>
<tbody>
<tr>
<td>Westside LRT</td>
<td>$300 m.</td>
<td>$400 m.</td>

</tr>
<tr>
<td>Banfield vehicles</td>
<td>0</td>
<td>50</td>
</tr>
<tr>
<td></td>
<td>$477 m.</td>
<td>$872 m.</td>
</tr>
</tbody>
</table>
2. The need for funding for transit operations and routine capital has been reduced by $4.3 million per year as a result of the payroll tax extension and cigarette tax, as follows:

<table>
<thead>
<tr>
<th></th>
<th>Pre-LRT</th>
<th>Post-LRT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Previous</td>
<td>$13.2 m./yr.</td>
<td>$21.1 m./yr.</td>

WHEREAS, the IRC Board of Directors has established a Transportation Policy Committee to develop regional transportation policies subject to the review and approval of the full Board of Directors; and

WHEREAS, METRO has initiated preparation of an Alternatives Analysis and Draft Environmental Impact Statement in the I-205 corridor from Portland International Airport to Clackamas Town Center; and
WHEREAS, METRO proposes to initiate preparation of an Alternatives Analysis and Draft Environmental Impact Statement in the Portland to Milwaukie corridor and systems studies for possible extension to Clackamas Town Center and/or Oregon City; and

WHEREAS, METRO and IRC have jointly approved a Bi-state Study work program to evaluate the adequacy of the existing transportation system and the currently adopted Regional Transportation Plan to meet existing and projected bi-state travel demands; and

WHEREAS, IRC and C-TRAN have initiated a systems study to identify high capacity transit alternatives on the I-5 North corridor into Clark County; and

WHEREAS, IRC and C-TRAN have initiated a systems study to identify high capacity transit alternatives on the I-205 North corridor into Clark County; and

WHEREAS, the City of Portland will be evaluating alternative alignments of LRT in the I-5 North corridor; and

WHEREAS, the City of Portland will be evaluating alternatives for additional LRT alignments in downtown Portland, including LRT on the transit mall and LRT in a subway; and

WHEREAS, it is important to ensure coordination of different components of high capacity transit planning in the north-south corridors between Clark County and Oregon City, now, therefore,

BE IT RESOLVED:

1. That policy oversight for the north-south high capacity transit studies shall be provided through quarterly joint meetings of JPACT and the IRC Transportation Policy Committee.
2. That technical and project coordination oversight shall be provided through establishment of a North-South Corridors Project Management Committee, to include membership from each affected agency and jurisdiction.

3. That project management for each individual study and associated contractual obligations shall remain the sole responsibility of each lead agency.

ADOPTED by the Council of the Metropolitan Service District this ___ day of ____________, 1989.

TEXT OF THE SLIDES

USED BY

DEPUTY FEDERAL HIGHWAY ADMINISTRATOR
GENE MCCORMICK

AT THE
AASHTO ANNUAL MEETING
OCTOBER 10, 1989

REGARDING

"AMERICA'S TRANSPORTATION FUTURE"
MAJOR CONCERNS: OUTREACH AND ANALYSIS

- inadequate capacity/substandard conditions and productivity consequences
- urban and suburban congestion and resulting mobility reduction
- lack of access to transportation services in rural and small urban areas
- continued safety problem of highway system and bridges
- negative environmental impacts of vehicle/highway system
- reduction in science and technology activities and loss of global competitive advantage
NATIONAL OBJECTIVES

- foster national productivity and mobility
- alleviate urban/suburban congestion
- enhance rural accessibility and development
- focus priority on deficient bridges
- make major strides in highway safety
- support environmental improvement
- regain science and technology leadership
RESTRUCTURING THE FEDERAL ROLE

- focus investments on key national system: preservation/new capacity/efficiency
- consolidate programs and increase flexibility but hold States accountable
- merge highway and transit funding where possible
- improve intermodal connectivity
- encourage greater private participation in finance and development
- restructure safety program through management and incentive approach
- expand funding and leadership in advanced technology
- improve planning and decision-making
- restore public confidence in highway trust fund
FEDERAL-AID HIGHWAY PROGRAM ELEMENTS

- national highway system
- State and local program
- bridge program
- metropolitan air quality program
- rural development program
- safety program
- science and technology program
NATIONAL HIGHWAY SYSTEM

- selected by States and approved by FHWA
- joint criteria
- components (replaces Interstate and primary)
  - current designated Interstate as subsystem
  - other principal arterials
  - strategic highway network
- efficiency/effectiveness/preservation maximized
  - pavement and bridge management systems
  - safety management program
  - congestion management plan
- initiatives to preserve corridors
- apportionment formula under review
STATE AND LOCAL PROGRAM

- flexible urban and rural multimodal program
- replaces urban, secondary, primary (minor arterial), safety construction and transit discretionary with formula program
- eliminates project approvals/agreements/inspections/standards
- States must demonstrate
  - approach to urban/rural split
  - method for consideration of >200K areas
  - process for consideration of congestion management, environment, rural accessibility, and safety improvement
- apportioned according to percent contributed
BRIDGE PROGRAM

- apportioned program for bridges on any public road
- discretionary program for high-cost bridges (threshold) on any road except local access
- toll potential consideration
- special discretionary program for high-cost off-system bridges
METROPOLITAN AIR QUALITY PROGRAM

- limited to non-attainment areas (vehicle-related)
- discretionary program
- demonstrated region-wide progress required
- any transportation project on regional air quality-related plan eligible
- funds not subject to sanctions
RURAL DEVELOPMENT PROGRAM

- focus on rural areas—especially public lands States
- discretionary program
- eligibility: based on population density, per capita income, and unemployment
SAFETY PROGRAM

- safety management system required
  - upgrade of safety features
  - process for correcting hazardous conditions
  - inclusion of safety priorities in projects

- safety incentive grant program
  - State driver requirements (legislation)
  - performance criteria

- supplemental motor carrier incentive grants
SCIENCE AND TECHNOLOGY PROGRAM

- expand funding for research, development and technology transfer
- establish as a separate program on multiyear basis
- program elements
  - highway research, development and technology
  - motor carrier research
  - advanced vehicle/highway systems: R&D and applications
  - technology transfer and assistance
- major industry involvement
FUNDING

- continued reliance on user fees
- extend trust fund/no obligation ceiling
- spend down trust fund account balances
- 5-year bill: 1-year transition
- transition year
  - new authorizations to complete Interstate and Interstate transfer
  - use up unobligated balance/no categorical restrictions
- Federal match
- increased funding for planning and research via takedowns
- expanded applicability of tolls and strong encouragement for private participation
Date: October 30, 1989

To: JPACT

From: Andrew C. Cotugno, Transportation Director

Re: Recommendation of the JPACT Membership Committee

Attached for consideration at the November 9 JPACT meeting is the Recommended JPACT Bylaws finalized by the JPACT Membership Committee. Key areas of discussion are as follows:

1) Should JPACT form an Executive Committee?

   The recommendation of the Membership Committee is "yes" and the attached bylaws are written accordingly.

2) Should additional members be added to the full JPACT?

   The recommendation of the Membership Committee, coincident with forming an Executive Committee, is to add an additional "city" representative from each county and a C-TRAN representative, increasing the membership from 17 to 21.

3) How should the additional "city" representatives be designated?

   There is no recommendation of the JPACT Membership Committee; the options are:

   a) Provide for two "city" representatives for each county, to be selected by the cities being represented; or

   b) Provide for a "city" representative for the largest city in each county plus one to be selected by the remaining cities.

   Note: These "city" representatives are in addition to the City of Portland representative.

4) Which members should have designated seats on the Executive Committee?
The recommendation of the Executive Committee is as follows:

Portland .............................................................. 1
Counties ....................................................................... 3
Cities ................................................................. 1-3
ODOT .......................................................................... 1
Tri-Met. ....................................................................... 1
Metro. ........................................................................... 1
State of Washington ...................................................... 1

9-11

The Membership Committee did not have a recommendation on whether one or three cities should be on the Executive Committee.

5) What should be the responsibilities of the Executive Committee?

The Membership Committee recommends that the Executive Committee be established in an advisory capacity with all action items requiring approval of the full committee.

6) Should these bylaws have a Sunset clause to ensure the Executive Committee process is tried out on a test basis?

No recommendation of the Membership Committee.

Also included in the recommended bylaws is a two-thirds vote requirement by both JPACT and the Metro Council for amendment of the bylaws.
ARTICLE I

This committee shall be known as the JOINT POLICY ADVISORY COMMITTEE ON TRANSPORTATION (JPACT).

ARTICLE II

MISSION

It is the mission of JPACT to coordinate the development of plans defining required regional transportation improvements, to develop a consensus of governments on the prioritization of required improvements and to promote and facilitate the implementation of identified priorities.

ARTICLE III

PURPOSES

Section 1. The purpose of JPACT is as follows:

a. To provide the forum of general purpose local governments and transportation agencies required for designation as the metropolitan planning organization for the Oregon urbanized portion of the Portland metropolitan area and to provide a mechanism for coordination and consensus on regional transportation priorities and to advocate for their implementation.

b. To provide recommendations to the Metro Council under state land use requirements for the purpose of adopting and enforcing the Regional Transportation Plan.

c. To coordinate on transportation issues of bi-state significance with the Clark County, Washington metropolitan planning organization and elected officials.

d. (Pending establishment of an Urban Arterial Fund) To establish the program of projects for disbursement from the Urban Arterial Fund.
Section 2. In accordance with these purposes, the principal duties of JPACT are as follows:

a. To approve and submit to the Metro Council for adoption the Regional Transportation Plan (RTP) and periodic amendments.

b. To approve and submit to the Metro Council for adoption short and long-range growth forecasts and periodic amendments upon which the RTP and other Metro functional plans will be based.

c. To adopt and periodically amend the Unified Work Program for the Oregon and Washington portions of the metropolitan area.

d. To adopt and periodically amend the Transportation Improvement Program (TIP). Projects included in the Transportation Improvement Program must be consistent with the RTP or a concurrent RTP amendment will be submitted to the Metro Council for approval.

e. To adopt the program of projects for annual disbursement of funds from the Urban Arterial Fund (pending). Projects recommended for funding must be consistent with the RTP or a concurrent RTP amendment will be submitted to the Metro Council for approval.

f. To adopt and periodically amend the transportation portion of the State Implementation Plan for Air Quality Attainment for submission to the Oregon Department of Environmental Quality.

g. To periodically adopt positions that represent the consensus agreement of the governments throughout the region on transportation policy matters, including adoption of regional priorities on federal funding, the Surface Transportation Act, the Six-Year Highway Improvement Program priorities and regional priorities for LRT funding.

h. To review and comment on the RTP and TIP for the Clark County portion of the metropolitan area and include in the RTP and TIP for the Oregon urbanized portion of the metropolitan area a description of issues of bi-state significance and how they are being addressed.

i. To review and comment, as needed, on the regional components of local comprehensive plans, public facility plans and transportation plans and programs of ODOT, Tri-Met and the local jurisdictions.
ARTICLE IV
FULL COMMITTEE MEMBERSHIP

Section 1. Membership

a. The Committee will be made up of representatives of the following jurisdictions and agencies:

- City of Portland ........................................ 1
- Multnomah County ....................................... 1
- Washington County ...................................... 1
- Clackamas County ........................................ 1
- Cities of Multnomah County ........................... 2
- Cities of Washington County .......................... 2
- Cities of Clackamas County ............................ 2
- Oregon Department of Transportation ............... 1
- Tri-Met .................................................... 1
- Port of Portland ......................................... 1
- Department of Environmental Quality ............... 1
- Metropolitan Service District (Metro) .............. 3
- Clark County ............................................ 1
- City of Vancouver ........................................ 1
- C-TRAN .................................................... 1
- Washington Department of Transportation .......... 1

TOTAL 21

b. Alternates may be appointed to serve in the absence of the regular members.

c. Members and alternates will be individuals in a position to represent the policy interests of their jurisdiction.

Section 2. Appointment of Members and Alternates

a. Members and alternates from the City of Portland and the Counties of Multnomah, Washington and Clackamas will be elected officials from those jurisdictions and will be appointed by the chief elected official of the jurisdiction. The member and alternate will serve until removed by the appointing jurisdiction.

b. Members and alternates from the Cities of Multnomah, Washington and Clackamas Counties will be elected officials from the represented cities and will be appointed through the use of a mail ballot of all represented cities based upon a consensus field of candidates developed through a forum convened by the largest city being represented. Two members and one alternate will be appointed from the cities of each county (or add: of which one member will represent the city in each county with the largest population). The members and alternate will be from different jurisdictions. The members and alternate will serve for two-year terms. In the event the member's position is
vacated, the alternate will automatically become member and complete the original term of office. The members and alternate will periodically consult with the appropriate transportation coordinating committees for their area.

c. Members and alternates from the two statewide agencies (Oregon Department of Environmental Quality and Oregon Department of Transportation) will be a principal staff representative of the agency and will be appointed by the director of the agency. The member and alternate will serve until removed by the appointing agency.

d. Members and alternates from the two tri-county agencies (Tri-Met and the Port of Portland) will be board members and will be appointed by the chief board member of the agency. The member and alternate will serve until removed by the appointing agency.

e. Members and alternates from the Metropolitan Service District will be elected officials and will be appointed by the Presiding Officer of the Metro Council in consultation with the Metro Executive Officer and will represent a broad cross-section of geographic areas. The member and alternate will serve until removed by the Presiding Officer of the Metro Council.

f. Members and alternates from the State of Washington will be either elected officials or principal staff representatives from Clark County, the cities of Clark County, the Washington Department of Transportation and C-TRAN. The members will be appointed by each respective agency and will serve until removed by the appointing agency.

ARTICLE V
EXECUTIVE COMMITTEE

a. An Executive Committee will be made up of representatives of the following jurisdictions and agencies:

   City of Portland . . . . . . . . . . . . . . . 1
   Multnomah County . . . . . . . . . . . . . . 1
   Washington County . . . . . . . . . . . . . . 1
   Clackamas County . . . . . . . . . . . . . . 1
   Cities of Multnomah, Clackamas, and Washington
       Counties . . . . . . . . . . . . . . . . . . 1 (or 3)
   Oregon Department of Transportation . . . . . 1
   Tri-Met . . . . . . . . . . . . . . . . . . . . 1
   Metropolitan Service District (Metro) . . . . 1
   State of Washington . . . . . . . . . . . . . . 1

   9 (or 11)

b. The Executive Committee will develop recommendations for consideration by the full Committee.
c. The members and alternates on the Executive Committee from Portland, Multnomah County, Washington County, Clackamas County, ODOT and Tri-Met shall be the regular members and alternates on the full JPACT committee.

d. 1) One Executive Committee member and alternate from the cities of Multnomah County, Washington County, and Clackamas County shall be selected by a majority vote of those members on the full JPACT committee.

2) Three Executive Committee members and alternates shall be selected from cities of Multnomah County, Washington County and Clackamas County by mutual agreement of the two members from the cities of each county.

e. The member and alternate on the Executive Committee from Metro shall be appointed by the Metro Council Presiding Officer.

f. The member and alternate on the Executive Committee from the State of Washington shall be appointed by the Clark County, Washington metropolitan planning organization.

ARTICLE VI
MEETINGS, CONDUCT OF MEETINGS, QUORUM

a. Regular meetings of the full Committee will be held bi-monthly at a time and place established by the chairperson. Special meetings may be called by the chairperson or a majority of the membership.

b. Regular meetings of the Executive Committee will be held monthly at a time and place established by the chairperson. More frequent meetings may be called by the chairperson or a majority of the Executive Committee.

c. A majority of the voting members (or designated alternates) of the full Committee and the Executive Committee shall constitute a quorum for the conduct of business of the respective committees. The act of a majority of those present at meetings at which a quorum is present shall be the act of the Committee.

d. Subcommittees to develop recommendations for JPACT can be appointed by the Chair. The Chair will consult on subcommittee membership and charge with the full membership at a regularly scheduled meeting. Subcommittees can include JPACT members, JPACT alternates and/or outside experts.

e. All meetings shall be conducted in accordance with Robert's Rules of Order, Newly Revised.

f. The Committee may establish other rules of procedure as deemed necessary for the conduct of business.
g. Each member shall be entitled to one (1) vote on all issues presented at regular and special meetings of the Committee. In the absence of the member, the alternate shall be entitled to one (1) vote. The chairperson shall vote only in case of a tie.

h. Unexcused absence from three (3) regularly scheduled consecutive meetings shall require the chairperson to notify the appointing agency with a request for remedial action. In the case of the representative for the "cities" of Multnomah, Washington and Clackamas Counties, the chairperson will contact the largest city being represented to convene a forum of represented cities to take remedial action.

i. The Committee shall make its reports and findings public and available to the Metro Council.

j. Metro shall provide staff, as necessary, to record the actions of the Committee and to handle Committee business, correspondence and public information.

ARTICLE VII
OFFICERS AND DUTIES

a. The chairperson and vice-chairperson of the Committee shall be designated by the Metro Presiding Officer.

b. The chairperson shall preside at all meetings he/she attends and shall be responsible for the expeditious conduct of the Committee's business.

c. In the absence of the chairperson, the vice-chairperson shall assume the duties of the chairperson.

ARTICLE VIII
RECOGNITION OF TPAC

a. The Committee will take into consideration the alternatives and recommendations of the Transportation Policy Alternatives Committee (TPAC) in the conduct of its business.

ARTICLE IX
AMENDMENTS

a. These bylaws may be amended or repealed only by a two-thirds vote of the full membership of the Committee and a two-thirds vote of the Metro Council.
Mr. Mike Ragsdale,
Chairman JPACT
METRO
2000 S.W. First Avenue
Building #128
Portland, Oregon 97201-5398

Dear Mike,

Members of JPACT have been requested to comment on the draft Bylaws forwarded to us on September 14. After review of the proposed revisions I find I am unable to support the changes as currently proposed. Specifically, the proposal to create a two-tiered committee and the suggested members/alternates appointment process are recommendations which cause concern.

Expansion of JPACT to include some of the larger communities and C-TRAN would be appropriate. However, it is not apparent the creation of a two-tiered JPACT would improve the deliberations or functioning of the Committee. The proposal would most likely lengthen the time required to deal with many issues, routine and otherwise. Certainly, items which are controversial are going to have to be dealt with and resolved twice. Creating an Executive Committee of eleven will not produce a noticeable streamlining of deliberations compared to a committee of seventeen if that is the objective. The suggested structure may have benefits of which I am unaware, however the material forwarded made no attempt to articulate them if they exist.

Section I.C. of Article IV of the Bylaws identifies the qualifications for JPACT members and alternates. The qualifier stated is simply that the individuals appointed be able "to represent the policy interests of their jurisdiction." Section 2 of Article IV outlines the procedures for appointment of members/alternates and includes changes which impact Tri-Met's representation on the Committee. The recommendations result in a confusing collage of representations. Cities and counties (Oregon) are to be represented by elected officials, statewide agencies by principal staff, Tri-Met and the Port of Portland by board members, Metro by elected officials and Washington cities, Clark County WDOT and C-TRAN can be represented by either elected officials or principal staff. Therefore under the proposed bylaws
it is okay for Vancouver to be represented by a key staff member but not so for any city on the Oregon side. C-TRAN can be represented by staff, Tri-Met cannot. A more appropriate definition would be those jurisdictions with elected officials to be represented by elected officials (including Washington jurisdictions). All other members should be represented by individuals which can meet the requirements of Section I.C. with the appointment made by the chief member of the governing board. The current proposal is arbitrary in its application and directs Tri-Met to utilize the limited availability of our board members in a way which may or may not be in the best interests of the District. We are not opposed to Board members serving in such a capacity and in fact have been represented by Board members in the past. We do object to not being given the opportunity to determine the most appropriate method of representation.

The above comments have been discussed with the Tri-Met Board Chairman who is in agreement.

Sincerely,

[Signature]

James P. Cowen
General Manager
November 8, 1989

TO: JPACT

FROM: Bonnie Hays, Washington County Representative
       Clifford Clark, Cities of Washington County Representative

SUBJECT: JPACT MEMBERSHIP COMMITTEE RECOMMENDATIONS

RECOMMENDED ACTION

It is our recommendation, as well as that of the Washington County
Transportation Coordinating Committee, that no changes be made to the JPACT
membership and that an executive committee not be established. We believe
that JPACT is functioning as intended, as the regional consensus body.

BACKGROUND

JPACT represents the broad spectrum of local governments in the Metro area and
has made good decisions with a regional consensus on a regular basis. The
addition of other members to JPACT or the creation of executive committee is
not necessary.

In order to more fully understand our recommendation, we will walk through the
issues. These are as follows:

° Attendance (lack of quorum)

One of the reasons that an executive committee has been proposed is to
deal with lack of attendance at the regular JPACT meetings on some
crucial issues. It was felt that an executive committee could meet and
react more quickly to specific issues of concern. It is our feeling
that, even though attendance has been a problem in the past, attendance
is now good and continues to be good and this executive committee is not
the way to deal with the attendance problem.
**Additional members to JPACT**

One of the main reasons the region is looking at allowing additional members to JPACT was a result of concerns by C-TRAN in Washington and the City of Gresham that they were not be represented on JPACT. Our position on these two areas are outlined on the following paragraphs.

The State of Washington through Clark County, City of Vancouver and Washington State Department of Transportation already has three representatives on JPACT. It is not necessary to add an additional member to assure that they are well represented. If those three entities wish to allow C-TRAN to sit on JPACT in their place, such a recommendation would be well received. In other words, Clark County, City of Vancouver, C-TRAN and Washington Department of Transportation can have three seats on JPACT, but it is up to them to determine which three members should attend.

If JPACT wishes to go ahead with two cities being represented by each particular county, the City of Portland should be the representative for the major city of Multnomah County and another city representative by election of all cities in that county. In Washington County's case our primary representative is from Forest Grove and our alternate is from the City of Beaverton, the largest city in Washington County.

Washington County created and staffs the Washington County Transportation Coordinating Committee which is represented at both the Technical and Policy level. We feel that our city representative to JPACT clearly represents the overall interests of Washington County and its cities. This level of cooperation allows us to conclude that an additional city representative to JPACT is not necessary or warranted.

**Proposed Executive Committee**

We have reviewed the proposed membership of the executive committee and think that it is counter-productive to have an executive committee made up of 9 to 11 members. We do not see where 9 to 11 members is a more workable group than the full JPACT committee. Since this committee would just be an advisory committee to JPACT on items requiring approval by the full JPACT, this committee's review and analysis seems redundant.

Re: Eastside I-205 Light Rail

Dear Committee Members:

We, the undersigned legislators, are writing to encourage your support for eastside, I-205 light rail. Due to recent Federal changes, Section 3 funds can now be allocated to more than one project. Hence, it is possible to proceed with the number one priority of the westside light rail while also moving speedily on the much needed project on the eastside, the I-205 light rail.

Eastside light rail is increasingly becoming an imperative addition. Our transportation problems are beginning to multiply. Current expectations suggest that I-205 will reach its capacity by 1992. It seems that more than simply adding lanes, it is appropriate to start working on moving our people into light rail and public transportation. Interestingly, this would not only serve the needs of the eastside, but preliminary estimates have indicated it will increase ridership downtown at least 35%.

We legislators here on the eastside view this as a "win - win" situation: the public would be routed efficiently through East Multnomah and Clackamas counties, but there also would be an increase of our folks and visitors commuting into downtown. It should also be pointed out that eastside I-205 is a readily buildable project as nearly all of the right of way is already there. Additionally, there is increasing new momentum from Clark County calling for an extension from Clark County to the Portland International Airport. This could greatly promote transportation within the region and help solve some of the problems we are having with the bridge links between Oregon and Washington. A rail line that would include the airport could also serve to ease congestion and improve access to the airport.
Therefore, we are writing this letter asking that you support the proposal to approve both I-205 and westside light rail.

Sincerely,

Senator Joyce Cohen
Senator Bill Kennemer
Senator Glenn Otto
Senator Frank Roberts

Representative Kelly Clark
Representative Dave McTeague
Representative John Minnis
Representative Lonnie Roberts
Representative Larry Sowa
