Mr. L. G. Apperson, City Engineer
City Hall
Portland, Oregon

Dear Mr. Apperson:

Vigorous opposition to the Metropolitan Arterial Loop is voiced by many who declare that the original plan which contemplated the widening of Front Avenue has been radically changed; that from its northerly point to Barbur Boulevard, the original plan contemplated Front Avenue throughout its entire length. The plans now in the office of the City Engineer do not call for any widening of Front Avenue.

Will you kindly answer directly and positively, whether the original plan as to Front Avenue can be restored at this time.

There are other issues involved which have cost us the support of influential property owners. They are not, however, major in character as the one outlined above.

The undersigned constitute a committee from the Metropolitan Association to which has been delegated this matter for adjustment.

Very sincerely,

[Signature]

J. R. HAIGHT, Chairman
